

TAFT TELLS OF HAPPINESS IN SUPREME COURT POST

Chief Justice, Satisfied With Lot, Hopes to Continue Duties Past Retirement Age

BY JOHN T. SUTER

(Mr. Taft has been a Washington correspondent for more than forty years. Since 1921 he has been a member of the Washington staff of the Associated Press, assigned to the Supreme Court.)

WASHINGTON, July 6. (AP)—Untroubled by the maddening swirl of politics, William Howard Taft is rounding out his seventieth year happier in his daily work than he ever has been before, in or out of office.

As he looks back over two scores for the society of office seekers and years of public service, the only man who has been both President and Chief Justice, says quite frankly that he does not consider that he has "dined" for the political arena and that he would rather be where he is today than in the White House.

CHIEF JUSTICE TAFT

It is so well known and so greatly encouraged over the news of his health that he has no intention of leaving the bench when he becomes eligible for retirement. He will be 70 years of age in September, and if he chose, could retire on full pay in 1931. He has completed ten years' service as Chief Justice, but he prefers to remain in office.

These disclosures were made to the Associated Press by Mr. Taft in a friendly and intimate talk just before he left Washington recently for his summer home in Canada. He now has commenced publication of this talk in which he touched on many personal subjects and discussed, with a knowledge no other man ever possesses, the temperate requirements of the Presidency and the Chief Justiceship.

"The talk took place in the study, which he liked out for himself some years ago, in a home on Wyoming avenue. It is a three-story room, just the size of the house, formerly a sleeping porch, in his hands on these days and provides for the Chief Justice a comfortable view." In the center of the room stands a large desk. Between the desk and the window are stacks of law books. On the fourth floor is an open fireplace, and above it hangs a large picture of Abraham Lincoln and of various personal friends, including John Root and President Lowell of Harvard.

As he approaches his comparison of the two great offices he has held, Mr. Taft made a passing reference to Theodore Roosevelt. Although he has not seen him in many years, he has not lost his admiration for the man. He said that Roosevelt, the Chief Justice mentioned without a word in his customary good nature, had offered him a place on the Supreme Bench. At that time Taft was Governor-General of the Philippines. He refused the offer.

"I declined because it was not deemed wise at that time, from a Philippine standpoint, to have a change in the office of Governor-General. The people wanted me to stay and I yielded, although it had always been my ambition to serve on the bench. I do not care for politics. With a smile that rippled into a hearty laugh, he added:

"I decided because it was not deemed wise at that time, from a Philippine standpoint, to have a change in the office of Governor-General. The people wanted me to stay and I yielded, although it had always been my ambition to serve on the bench. I do not care for politics. With a smile that rippled into a hearty laugh, he added:

JAPANESE SIDE WITH AMERICA

British Cruiser Demands to be Fought Jointly

Action Brings Conference to Verge of Disaster

English Hint Collapse Would be Ascribed to Us

(Continued from First Page)

with the position of the United States as a great world power. Today's private meetings between the American and British delegates proved disappointing, because the British, it is understood, expressed complete dissatisfaction with the new American suggestion for a maximum cruiser tonnage of 4000 tons.

It even was reported on good authority that there was talk during the lively conversation as to who would be responsible before world opinion if the conference should collapse and that the British delegates would fall on the shoulders of the United States.

The British maintained that some fault with the Americans because they failed to perceive what the British regarded as the wisdom of cutting down the sizes of individual warships. The American delegates insisted that the United States could not be expected to build warships poorly suited to American national needs and pointed to the immunity of the building program which would be involved for the United States in accepting the British program of approximately 6000 tons in cruisers.

GIANTIC TASK
The situation, from the American standpoint, was that the American delegation either would have to subscribe to a treaty which would give Great Britain about double the cruiser or destroyer tonnage, or else accept a treaty which would establish parity on the basis of 4000 tons. Apparently the American delegates believed the latter solution would be approved by the American people.

It is felt here that even if the Americans agreed to the 6000-ton limitation, the greatest difficulty would be encountered by the American government, first, in obtaining the permission of Congress to appropriate the stupendous sums necessary for the essential building and second, even if an agreement by Congress were obtained, in building the ships themselves. Since many American shipbuilding yards now have been diverted to other uses.

Hugh Gibson, head of the American delegation, and Rear-Admiral Hilary P. Jones, head of America's technical delegates, therefore, appear to have a problem of the first magnitude on their hands, but seem groping in an endeavor to discover some solution to prevent a breakdown of the conference, which should be regarded as a possibility.

The British apparently were taping their cruiser demand on what ships will be built up to 1940 and some formula may be found which merely "taps" the Geneva agreement up to 1936, when it is probable that another general naval conference will be convened in view of the likelihood of some nation denouncing the Washington treaty by that time.

WASHINGTON HAS
SUSPICION OF BRITAIN
WASHINGTON, July 6. (Exclusive) Great Britain's insistence for a high cruiser tonnage limit at Geneva has aroused the feeling in Washington that the British government apparently is determined to maintain its present naval superiority by obtaining a tonnage limitation figure or cruiser tonnage so high that this government, even if it signed the agreement, never would build up to it.

High officials who hold this view believe that Great Britain, while admitting the right of the United States to parity in all classes of ships, still is unwilling to sign a 3-5 ratio between the two nations. This new instructions have been cable to Geneva and no further.

WORST AIR TASKS AHEAD

Meteorologist Says Western Flight Over Atlantic Will Pave Way for Safety

NEW YORK, July 6. (AP)—James H. Scar, senior meteorologist of the United States Weather Bureau here, told the Associated Press today that he believed the most difficult preliminary step still to be taken in the way for a successful western flight from East to West, which he sees as "at least 50 per cent more difficult than the now three-traveled eastward course."

Scientific data gathered by Commander Richard E. Byrd during the flight of the great monoplane "America" he believes may prove to be of the greatest importance in paving the way for a successful western flight as well as for all long-distance flying, and so for speeding the day when there will be regular two-way service.

REALLY LONGER
"You can't have an airline that travels only one way," he said. "There would be no purpose in flying to Europe and then back by steam for your return trip. The western course also must be shown to be possible and it will be, but the difficulties are great."

Commander Byrd himself has said that the western course from Ireland to Newfoundland is in effect 400 miles longer than the eastern flight over the same course because of adverse winds which destroy mileage instead of increasing it. Foremaster Scar sees even greater difficulties than that from a meteorological standpoint.

The general trend of weather conditions, he said, "is from west to east across the Atlantic. Therefore, if we have accurate reports of conditions at any given time we can start a flyer off at Newfoundland and he practically will follow his starting weather right over. Had weather ahead of him in his course won't."

commendation as to future action by the United States. He said that the question has been sent here by Ambassador Gibson. It was made clear today that the United States will not agree to a tonnage agreement which calls for much more than a 4000-ton maximum tonnage limit for cruisers. He said that 4000 tons is the absolute limit to which this government will go.

Despite pessimistic news limitations from Geneva, Secretary Kellogg is optimistic that the conference eventually will be successful. His opinion is that no country represented at Geneva can afford not to reach an agreement limiting naval building.

Experts on naval affairs have pointed out that if Great Britain were to build a tonnage limitation of approximately 6000 tons, it would mean that the British navy would have to build twenty new cruisers in addition to her present built and building tonnage. At \$14,000,000 per cruiser, that cost more than \$280,000,000. Even the construction of ten new 10,000-ton cruisers by England would cost more than \$140,000,000, it was pointed out.

Naval experts figure that Great Britain has sixty-four cruisers built and building with a tonnage of 287,000. To attain 6000 tons, it was pointed out that two 6000-ton cruisers or their equivalent would be necessitated.

BRITISH ENVOY
CALLS ON KELLOGG
WASHINGTON, July 6. (AP)—An unheralded conference at the State Department today between Secretary Kellogg and the British Ambassador, Sir James Howard, prompted speculation as to the connection of his conversation with the British statesman of the three-party naval limitation discussion in Geneva.

State Department officials refused to say whether the British ambassador's visit beyond the statement

CRASHES IN AIR FATAL TO FIVE

(Continued from First Page)

W. Judson, president of the Continental Motors Corporation, received severe bruises and other minor injuries when the machine in making a landing at the local flying field turned upside down.

The passengers, guests of Mr. Judson, were en route from Muskogee to Detroit and Cleveland. Judson was hurt only slightly, but five others required hospital treatment.

FLYERS ESCAPE
WHEN CRAFT FLUNG
LONGVIEW (Wash.), July 6. (AP)—J. B. Story, 42 years of age, and A. B. Holden, 31, of Tacoma, escaped without a scratch here today when their biplane, while flying over the city, was struck by a power line and crashed. The plane was destroyed.

Story, head of the Story-Bagge Radio Sales Company of Tacoma, was bringing the plane here to demonstrate to the new Longview Aero Club.

FALL TO STAND ANOTHER TRIAL

(Continued from First Page)

Also today in District of Columbia Supreme Court, deferred the action of Albert B. Fall, who, while Secretary of the Interior, dismissed proceedings to determine whether lands in Kern county, California, were mineral in character when they were turned over to the state of California. The oil company came into possession of some of the lands and two years ago Secretary Work ordered new hearings to determine if they were mineral-bearing and therefore whether they had been legally relinquished by the government. An injunction was obtained against Mr. Work.

In his brief today the standard said judgment of Fall was a final adjudication on the merits that the title had passed to the state of California and that the land was no longer part of the public domain.

ad. before he decided the French ought to have the honor. When asked why Mr. Levine made his announcement before he was absolutely sure of getting a pilot, Mr. Hartman declared he anticipated no difficulties and to prove his good faith he announced that Mr. Levine had called the Columbia chief telephonically, John Chas. to help the first boat for Europe.

There has been a serious rift in Mr. Chamberlain's and Mr. Levine's friendship is evident. Mr. Chamberlain is resolved to keep his troubles to himself.

BYRD WINS NEW HONORS
All six of the Atlantic's conquerors were conducted through a swirl of events today. Commander Byrd with his crew visited Premier Poincare and learned that he had been promoted to an officer of the Legion of Honor. He won his red ribbon with his North Pole flight.

With almost childish joy the pitiful inmates of the government hospital for "glacier-wing aviators," disabled in the war, shook hands with Commander Byrd and his crew during a touching visit there.

The afternoon was filled with receptions and the evening with a ball at the Hotel Claridge, given by the International League of Aviators.

GRACE WILL REBUILD HIS PLANE HERE

Hollywood Flyer Plans to Enter Race to Hawaii for \$35,000 Prize

MANA, ISLAND OF KAUAI (T. H.) July 6. (AP)—Richard Grace, Hollywood aviator, said today that he will leave by steamer for Honolulu Saturday to confer with Baron E. Roger, his mechanic, and to communicate with Grant E. Dolge of Hollywood, his backer.

Grace probably will sail from Honolulu on the first available steamer for Los Angeles, taking his plane with him to be rebuilt or replaced so that he can enter the competition for the \$35,000 prize offered by James D. Dole of Honolulu for the first aircraft to fly from the mainland to Hawaii after August 12.

"After surveying the damage to my plane I have decided it is better to rebuild it than to try to make it fly where I shall be closer to the source of supplies and have more complete facilities," said the aviator.

"When I return to Hawaii by air in the Dole competition," he continued, "I'll land at Honolulu and then fly to Kauai to take off from the runway at Mana for a return flight to the mainland."

"I plan to start the wing span to increase the speed of the plane, which already is 140 miles an hour. "The pup (Grace's mascot) will accompany me both ways. It will be hard to separate that pup from me since we've been in a crack-up together."

"I want to take off from this field because it lies in the direction of the Hawaiian Islands, and it is a potentiality a marvelous field for commercial and even military flying."

GLADYS ROY PLANS ROME SEA FLIGHT

Stunt Flyer Wants to be First Woman to Fly Over Atlantic to Europe

CLEVELAND, July 6. (AP)—Miss Gladys Roy, stunt flyer, and parachute jumper, announced here tonight that she expects to make a trans-Atlantic flight from New York to Rome with her co-pilot, Lieut. Delmar L. Snyder. She is associated with her in stunt flying.

Miss Roy claims high and low parachute jumping records from 16-100 feet and 100 feet, respectively. "I want to try the Atlantic before any other woman gets a chance to do it," she said.

Angeleno Heads Coast Branch of Urologists

SEATTLE, July 6. (AP)—Dr. Anders Peterson of Los Angeles was elected President of the Western branch of the American Urological Association in convention here today.

Dr. W. B. Dakin of Los Angeles was named vice-president and Dr. William Stevens of San Francisco secretary.

TWO NEW BOARDS TO AID YOU

More Departments With Additional Division

SACRAMENTO, July 6. Two new departments of Gov. Hiram Johnson, which will be created July 29, now being organized. The new departments will be the Department of Public Works and the Department of Public Safety.

The new departments will be organized on a basis of efficiency and economy. The Department of Public Works will be headed by a Commissioner of Public Works, and the Department of Public Safety will be headed by a Commissioner of Public Safety.

The professional standards of the boards of accountancy, architecture, bar examiners, chiropractic examiners, civil engineering, dental examiners, electrical examiners, embalmers, engineering, pharmacy, and veterinary examiners, will be brought under the control of the two departments.

The further reorganization of the state government will be made. The Department of Public Works will be headed by a Commissioner of Public Works, and the Department of Public Safety will be headed by a Commissioner of Public Safety.

Splendid USED CAR BARGAINS always to be found in TIMES WANT ADS

It is difficult

in an age of exaggeration to write the advertising for an event such as the

HANAN SEMI-ANNUAL SHOE SALE

We could tell you that the stock is far more complete than in any previous Hanan Sale. We could remind you that a Hanan Sale is a real sale and that the shoes offered are the latest models from our regular stock. And we could be very enthusiastic about it all—because it is true—and is a genuinely unusual opportunity for the discriminating shopper

but

in an advertisement, it merely looks like all other sale advertisements—and the Hanan Semi-Annual Shoe Sale is emphatically not that.

Therefore, we merely say:

The Hanan Shoe Sale is in progress. If you need shoes, we can certainly please you, and—if you don't need shoes—we feel certain we can show you the economy of a purchase at these prices anyway.

Junior Golfers Open Title Play at Brentwood Today

FINE FIELD IN ANNUAL EVENT

Californian Youngsters Favored in Championship

Will Compete for Local Honors

Increased in Great Shape for Tournament

BY BILL WISE

Californian youngsters, representing every club in the state, will play a quality golf tournament today at the Brentwood Country Club when the annual Southern California junior golf championship starts with 115 entries, a record number. Last year's bumper crop is being engaged in making itself known in the East right now and there is every prospect that the 1927 aggregation will likewise be a great success. Our young players such as Gerhardt, Poe, Herrington, Craig and others, none of whom are over 21, promise to keep us up to the way to see that the youngsters get that very much needed encouragement on route.

One of our very best prospects, little Billy Doe, won't be in the running this year because he had an engagement with appendicitis and came off second best but all the others will be there. All the golfing communities will be sending their best players to compete against the boys from the big city and they are sure to do a good job of it. Keith Hamilton of Santa Barbara is one of the leading youngsters and Allen Wade of San Diego is another. Ted Easton of Los Angeles is a prospect, so is young Dodge from Pasadena—there are lots of good ones and they're worth seeing in action.

There will be a lot of arguments settled today when Cranton Holman of Stanford and Ben Overland of Occidental battle on the green courts of the East. Before the boys went out they had never met but Holman would have been an overwhelming favorite to trim the local youth. Since hitting the grass, Holman hasn't been going so well and Ben has been playing excellent tennis so that there is considerable room for argument. Holman is a better tennis player than his work in the East this season would indicate and he ought to be getting right back in his old-time form soon.

Natal Craig, Occidental's other representative in the East, is having more difficulty than Gerhardt in becoming accustomed to the turf. He has turned to some fine wins and some rather embarrassing losses but is sure to find himself shortly. His play in the division has apparently been very good throughout and if he could beat as good a player as Ted Easton of the Japanese Davis Cup team he certainly has the ability to play well on the grass at times anyhow.

Jack Doyle will make it three heavyweights in a row next Tuesday night. Eddie Bradford two weeks ago in seven rounds. Last Tuesday night George Godfrey knocked out Neal Clabby in seven rounds.

Next Tuesday night Jack Dempsey will lose his heavyweight title to Gene Tunney in the same ring. The fight picture taken at Philadelphia, which opens Friday night at the Olympic boxing arena will be the program for the regular fight night.

Matchmaker Wad Wachams was yesterday unable to sign a main event to suit him and his part of the boxing show was called off.

He planned on using Benny (Kid) Carter vs. George Rivers and Billy Orin vs. Danny Kramer.

Rivers was unavailable for this date, so the entire card fell through. Preview of the fight picture, which was originally set for yesterday will be held today at the Philadelphia Arena at 2 o'clock.

The film failed to arrive in time yesterday from San Francisco so give the previewers their first "peek."

HOLLYWOODERS PASS SERAPHS

Angels Defeated by Scores of 6 to 3 and 5 to 2

Shellenback Twirls Sheiks to Victory in Opener

Mulcahy's Relief Pitching Saves Finale for Vitt

(Continued from First Page)

over. The cracked shells are meeting Red Killefer's rampant Seattle Tribe this week and figure to lose at least five of their seven games with the Indians. Hollywood is just two and a half games behind the Mission, so the Stars have a good chance of making further advances.

STAGE NEAR RIOT

As an extra added attraction some late cash customers attempted to start what the boys were wont to call a riot between games but it didn't get over, except in a couple of the afternoon rallies. The trouble started when an usher, following orders, took a baseball that had been fouled into the stands away from a youngster.

Incensed as it is generally the custom out at Wrigley Field to let the fans keep all baseballs they can get that are rapped into the stands, the irate cash customers thought the usher was out of line and said so, some of them saying so in much stronger language than others. However, nobody got hit so the riot, in our estimation, was a decided failure.

In an effort to shove the Seraphs farther down in the cellar today, Oscar Vitt is going to start Bud Teichman, the ex-Occidental College southpaw, on the mound. Teichman pitched good ball in his first two starts but has yet to win a game. Oscar expects he's due to win today. Lefty Peters will hurl for the Angels.

The Angels got off in front in the opener when, after they had killed the sacks on two lucky hits and an error by Lee, Hamilton singled to drive over a couple of runs. After that, though, Frank Shellenback, lefty, stepped in to check. The star pitcher specialist came up in the final two rounds and yielded one more run, but by that time the sheiks had the ball game fairly well cinched.

Earl Hamilton was nipped for a run in the Hollywood half of the second when Shellenback singled and scored on Tom Holley's triple against the centerfield brinks.

STARS GO INTO LEAD

Lee's double, Kerr's infield hit, Teichman's sacrifice fly and Danny Murphy's sacrifice gave the Stars two more of Hamilton in the third and after that the Stars never were headed. A walk to Shellenback, Shellenback's sacrifice and McNulty's one-base shot to center produced the Stars' final run off Hamilton in the sixth.

Hamilton retired for a pinch-hitter in the Angel seventh, so the Stars picked up their last two outs on the bases. It wasn't Rube's fault, though, a couple of errors and singles by Murphy and Shellenback doing the damage. The runs were unearned.

Bruce Cunningham and "Arizona Bill" Murphy were the starting pitchers in the nightcap, but neither of them lasted the route. Murphy was succeeded by Bill Prall, Art Jacobs and Paul Mulcahy, the latter taking the game for the Stars in the sixth, when he went in with the sacks full and home out and retired the side without a run scoring. Smith finished up for the Angels after Cunningham gave way to a pinch-hitter in the sixth.

A walk to McNulty, Shellenback's sacrifice and Mickey Healy's single gave the Stars their first run in the second and two more were added in the third. In this round Lee doubled, Kerr singled and Teichman doubled to produce the pair of counters.

MURPHY CHASED

The Angels battled Murphy out of the picture in the fourth and Prall, who succeeded him, pitched to one batter, whom he walked before Jacobs came on the scene. Jack drew a walk with one out to start the eighth and Wells and Cox came through with singles to drive in one run. Mitchell's sacrifice fly brought in Wells with another score. When Sandberg singled, Murphy was derelicted. Prall walked Cunningham to all the bases and then departed in favor of Lefty Jacobs. Prall, who has been in a slump, grounded out to leave the trio of Angels stranded.

The Stars converted another walk into a run in the fourth, Holley drawing the pass and completing the circuit on Cobb's sacrifice and hits by Jacobs and Lee. Mickey Healy homed into the bleachers in the fifth to give the sheiks their fifth and final run of the afternoon.

Mulcahy pulled his famous rescue act in the sixth, which opened with singles by Wells and Cox and a walk to Mitchell that filled the sacks. Phil then came on the job and fanned Sandberg and pinch-hitter Len to somewhat relieve the tenacity of the situation. Brant hit one through the box but Dudley Lee speared the ball in back of second and made a back-hand toss to Kerr for a force-out that stopped the Angel rally cold.

Phil retired the Krugman in one-two-three order in the seventh to make sure that the Seraphs would sleep in the Coast League cellar.

SCORES: Five innings: HOLLYWOOD: Brant 1b, Cobb 2b, Jacobs 3b, Lee 4b, Kerr 5b, McNulty 6b, Healy 7b, Prall 8b, Sandberg 9b. Angels: Shellenback 1b, Peters 2b, Hamilton 3b, Teichman 4b, Murphy 5b, Cunningham 6b, Mulcahy 7b, Prall 8b, Sandberg 9b.

WALLACE WILL JOIN TUNNEY

CLEVELAND, July 6. (AP)—Before returning to his Speculator (N. Y.) training camp, Gene Tunney, who has been spending a short vacation here, announced that Billy Wallace, Cleveland lightweight title contender, would join his camp next week. The heavyweight champion will begin boxing at that time and Tunney said Wallace would be used to speed up his work.

There was a rumor around Los Angeles yesterday that Ace Hickins would be matched with the winner of the Hollywood main event in case Mushy Callahan beats Sergeant Sammy Baker in Chicago. Adams is just the kind of fighter to cause Hickins plenty of trouble.

The main event is causing lots of excitement owing to the fact that DeHate is a knockout artist and Adams one of the most sensational battlers ever developed in Los Angeles. Johnny is a product of the Legion stadium and a whole of a fighter.

Eddie White and Benny Dotsen ran about on even terms today. The semi-stint-up will be another thriller if the fighters live up to their reputations.

Perhaps the best fight of the night will be the special event which introduces the new Filipino sensation, Young Carreon, who is battling Young Magallanes. Carreon is the favorite and may stop the Mexican.

Midweek Polo Four to Play Army Quartet

McQUILLAN GUILTY OF COURT CONTEMPT

NEW YORK, July 6. (Exclusive)—Hugh McQuillan, pitcher for the Boston Braves and formerly a Giant player, was adjudged in contempt of court by Supreme Court Justice Croswell in Brooklyn today for failure to pay an alimony installment to his wife, Mrs. Nellie McQuillan.

Mrs. McQuillan received alimony of \$400 a month in August, 1925, for five months a year, during the baseball season, pending trial of her action for separation. McQuillan was declared in contempt today for failure to pay \$250 due Mrs. McQuillan on July 1.

Colorado Springs (Colo.) July 6. (AP)—Port Bill, Oklahoma, polioista today won the right to meet the Midlands of Los Angeles, Cal., in the finals of the six-year July tourney by defeating the Broadmoor, Colo., four to two at the Cheyenne Mountain Country Club Field.

Major A. R. Harris, No. 3 of the army team, accounted for four of the Port Bill's rallies. He made two of them after he had narrowly missed serious injury when his pony stumbled over him. Harris put out of the game for a few minutes, returned to perform even more brilliantly.

Port Bill and the Midlands meet tomorrow in the first of the eight-goal handicap series.

ADAMS AND DEHATE SET FOR FIGHT

Rival Welterweights to Knock Off Training for Legion Bout

Johnny Adams and Paul DeHate knock off training this afternoon and both are in excellent shape for the main event at the Hollywood American Legion stadium tomorrow night. Adams still ruled a 10-to-5 favorite over the Frenchman.

Who's got the makin's?

THAT'S easy. P.A. has the makin's—the makin's of the best home-rolled cigarette that ever met a match. I'd better put that another way, because this cigarette never met its match in the home-made field. It stands alone, unmatched and unchallenged. You can prove it.

Light up. Here's the Big smoke-thrill. That cool, refreshing taste of good old Prince Albert. Mild and mellow as a morning in June. Mild, but with that rich, round body that makes every cigarette a smoke! If you've followed me so far, I can sign-off right here.

Maybe you've often wanted to smoke a pipe, but never were convinced that you could. I'd like to leave this thought with you: Prince Albert has done more for pipe-shy men than any other brand that ever was. It doesn't bite the tongue or parch the throat. I suggest you try Prince Albert.

PRINCE ALBERT

—no other tobacco is like it!

since prohibition, that it did not possess in the old days? And furthermore, he asks if the nation is as well as it talks and if our present unprecedented economic prosperity is not in a measure due to prohibition. Mr. Blythe reaches some very interesting conclusions concerning the Eighteenth Amendment and the new psychology of drinking.

EGYPT PUZZLES BRITAIN SORELY
Officials at Cross-Purposes on Treaty Policy
Foreign Secretary Opposed by High Commissioner
Early Collapse of Kingdom Foreseen by Lloyd

(Copyright, 1927, by Chicago Tribune)
LONDON, July 6. (Reuters).—While reports that the city of London are getting King Faisal of Egypt, the Foreign Office is trying to get together with Sir Herbert Plumer, the Egyptian Premier, and work out a treaty which will settle the relations between Great Britain and Egypt for years to come.

Serious difficulty has arisen, it is understood, owing to the opposition to this course from Lord Lloyd, British High Commissioner in Egypt.

FOREIGNER COLLAPSE
Lord Lloyd, who is an experienced politician, believes the parliamentary system in Egypt is bound to collapse before long and looks forward to the necessity of Great Britain resuming the protectorate. On the other hand, the Foreign Office insists on giving the recent grant of partial independence a treaty status. Lord Lloyd has been talking to the cabinet ministers in opposition to Foreign Secretary Austen Chamberlain's plan.

On the Egyptian side also is discussion of King Faisal, and Sir Herbert Plumer, who believes to be too much under the influence of Egyptian opinion, has called to his aid Sir Austen Chamberlain, who at the demand of Faisal has been sent to Egypt to settle the matter.

Lord Lloyd is believed to have anything to do with the King Faisal by his side and listen to him.

INSULTED KING
The Egyptian have complained to the British Ambassador in London against a high officer of the British army in Egypt. This man was a commander of King Faisal when the latter was a young officer in the British army. When King Faisal arrived in England the Italian wrote him a note beginning "Dear Faisal,"—meaning "Dear Little Faisal." This failure to recognize his royal dignity infuriated King Faisal.

ON LA PALOMA

The sun beat down pitilessly on the barren waste that constitutes the island of La Paloma, named by an old Spanish navigator for the fact that he drove would venture near the place.

On the shore two sudden figures stirred slightly. Near them four others lay still and silent—four men, stark ribs and battered hull of a wooden-hulled steamer explained their presence there. And the dark gray hush of a school of sharks cutting the water close at hand lacerated the crew of the trading steamer Empire.

Two months before the Empire had put in for fresh water at Bayport, one of those places which for want of a better description we call tropical.

unpleasantly of an orange-putting as they hung by his side a little lower than those of most people.

His features were coarse and somewhat brutal, where John's were finely chiseled—the fine character which was portrayed in John's face was conspicuously absent in his fellow-townsmen's. The unpleasant effect was heightened by the fact that John's face had been out of the question for the past seven days.

Though the two were companions in a common desperate situation, neither forgot the deadly rivalry which existed between them. Neither forgot that at home Jeanne-Marie's father had seemed to favor the suit of the more powerful Ralph. In his heart John cherished the belief that which he had salvaged from the sea without so much as a chance to examine it. He thought of those two agonizing days on the raft, a grim hard line gathered around his mouth.

"No, sir," he answered, "there are no more survivors."

Two years later they sailed into Bayport harbor the handsome steam yacht Empire. On the bridge was Capt. John Deven, her master and owner.

Fortune had smiled on John in Australia's "digging." And now he had come to claim the greatest prize of all.

It was on their homeward voyage around the world that John met saw La Paloma. They were following a windward used steamer lane when Jeanne-Marie, viewing the wide, blue expanse of the South Pacific, saw toward a small island topped by a low knoll.

It was on their homeward voyage around the world that John met saw La Paloma. They were following a windward used steamer lane when Jeanne-Marie, viewing the wide, blue expanse of the South Pacific, saw toward a small island topped by a low knoll.

Actuated partly by a land-lubber's natural desire to set foot on terra firma—even if so small a bit as this—Jeanne-Marie, viewing the wide, blue expanse of the South Pacific, saw toward a small island topped by a low knoll.

At the top of the small rise they found the broken-down stump of a spar to which the shreds of a white shirt were still hung. Close to the stump there lay stretched at full length the skeleton of a tall man, the battered rag of a sailor's uniform still clinging to the bony limbs.

In front of the ghastly figure there lay, as though it had been tossed to the ground in sudden fury, a small box of wooden poker-chips.

When he came ashore Ralph curtly commanded him: "Hand it over."

John had looked with kindling eyes upon his own suit. The problem of fresh water supply on their island prison was solved by the simple device of digging in the sand far enough from the shore-line to have the chlorides filtered out of the water. But how to get food was not so simply settled. It soon became evident that all they could hope for from the wreck was a discouragingly small amount of water-soaked and blighted provisions. Their main dietary article must, therefore, be what they could get from the sea.

For the first few days the two sat at their animosities and set about rigging up a distress signal to attract the attention of any ship that might pass their shore.

As time wore on their relations became less and less cordial. Ralph had proceeded by virtue of his superior strength to assume charge of their activity, John, being unable to contest the issue, tacitly consented.

Then one day John's food-hunting expedition had been particularly unfruitful. Returning with a small amount of shellfish, he had quietly been deprived of them by his fellow-captivity.

The next day John moved to the other side of the island. He had kept a smoke-fire burning to attract the attention of passing vessels, and for a time Ralph continued to do his share of the wood-gathering. But soon he ceased even to do this.

One day John sighted floating off the island a small pack; which might have contained crackers or other food. He went out and salvaged it. As he returned he saw Ralph standing on the shore where he was to land.

When he came ashore Ralph curtly commanded him: "Hand it over."

John refused—and remembered no more. His opponent had ended the discussion by hitting him over the head with a rock and had left him lying on the shore where he was to land.

Two days later his small craft was sighted by a freighter bound for Australia. A little while after having been tied, clothed and generally refreshed, he reported to the bridge, where he found the captain looking intently through his glass at an island which bore about four points off the starboard bow, and seemed to be about eight miles away.

"Are those your signals?" he asked John.

The latter, taking the glass, focused it on the island and saw the two bits of cloth which had been part of his distress signal system. The incident led him to the discovery that he had seen what the captain did not see—an island which bore about four points off the starboard bow, and seemed to be about eight miles away.

"Yes," he answered to the captain's query.

"And there are no more survivors?" the captain pursued.

John remembered Ralph's conduct on the island. He felt the ugly truth on his scalp. He recalled the way in which he had been deprived of that

INDIA MOSLEMS BREW HOLY WAR
Masses Declared Ready for Religious Revolt
Authorities Unable to Check Meetings in Lahore
Leaders Order Followers to Arm for Strife

LONDON, July 6. (P.)—The Evening News' Allahabad correspondent says that religious unrest is reported from many parts of India and that despite orders to the contrary, mass meetings, attended by thousands of persons, are being held at Lahore.

The correspondent says that Syed Bukhari, self-appointed leader of the Moslems, has asked every Moslem to carry a native weapon and to eat beef in order to gain muscular strength, while women have been invited to carry knives in preparation "for a fight to maintain Moslem honor."

An appeal has been made to the government to remove Chief Justice Sir R. S. Shadi Lal and to substitute an Englishman or a Moslem. This correspondent says that the support of the Moslem cause probably comes from the Khilafat committee.

The religious influence of the leaders was described as considerable with support of the Moslem masses for a holy war against the British and military authorities were urged to be ready for eventualities.

A Reuters' dispatch from Calcutta tells of conflicting reports of Communist disturbances which have been received from Palghat in the Madras district of Bengal. The reports have not been confirmed by officials.

ONE ASYLUM INMATE DIES AMID BLAZE
Three Thousand Others in Panic When Flames Sweep Napa Hospital Building

NAPA, July 6. (P.)—John H. Brown, an inmate committed from Lassen county, was burned to death and 8000 other patients of the Napa State Hospital fled to safety today, when fire destroyed an industrial building and threatened to raze the main ward buildings. The loss was estimated at \$15,000.

Dr. G. W. Ogden, superintendent of the hospital, said he believed Brown went into the burning building after he had been taken out. His body was found on the second floor of the structure after the fire had been extinguished.

The fire "broke" around a sixty-fire patients were being marched out of the building adjoining the flaming structure and excitement prevailed throughout the institution. Nurses, guards and other attendants worked orderly to quiet the patients while others aided the Napa fire department in fighting the flames.

HAIL AND CYCLONE HIT REGION IN RUMANIA

BUCHAREST (Rumania) July 6. (P.)—A storm of cyclonic proportions, accompanied by hail, brought havoc to the Ardeal region Saturday. It caused property damage estimated at more than \$2,000,000 and injured a number of persons, but so far as known no one was killed.

Stomach Sufferers
Have You Tried Mexican Agmel, now available here for first time!

For centuries Mexican Agmel, the great natural remedy of Mexico, has been the favorite of the Spanish Conquistadores. Scores of books and treatises have been written on its medicinal use. And for 50 years European and American physicians have used Agmel to cure patients in Mexico to drink Agmel. Agmel is a medicinal tonic. It is a natural remedy of Mexico. It is a natural remedy of Mexico. It is a natural remedy of Mexico.

FRIGIDAIRE
The lowest price in history
a genuine Frigidaire complete
for \$195
TERMS:
\$25 down;
\$9.30 a month
F.O.B. DAYTON OHIO

ONLY through Frigidaire's enormous production facilities, backed by the vast financial resources of General Motors could such an electric refrigerator be offered at such a price.

Think of it! A genuine Frigidaire, complete with cabinet, frost coil and compressor, ample in size for the average family, designed, built and finished to exacting Frigidaire standards—and its price is within the means of every home that has electric current!

Come in and see the new Frigidaire demonstrated. See how it keeps foods pure and fresh for days, even weeks—how it makes

five pounds of ice cubes between meals. See how quietly it operates—yet how it maintains a uniform low temperature. Notice how compact it is, yet with five cubic feet for food storage; how light and easily moved, yet with full standard Frigidaire insulation.

Visit our showroom and see this new Frigidaire today. Ask us about operating costs. Learn what a small down payment will put Frigidaire in your home—how easily you can pay the balance on the convenient plan of General Motors.

1. Plugs in at a convenient electric outlet—EASY TO MOVE.
2. Automatically maintains constant low temperatures—without ice, without attention.
3. Freezes FIVE POUNDS of ice cubes between meals.
4. Has practically FIVE CUBIC FEET of food storage space.

NEW INTRIGUES
IN INDIANA TOLD

Ex-Klan Chief Stephenson
Reveals More Secrets
Says He Wants Playmates to
Join Him in Prison
Promises to Tell It All When
Right Time Comes

MICHIGAN CITY (Ind.) July 6. (AP)—D. C. Stephenson, former ruler of the Indiana Ku Klux Klan, and as such the guiding genius of the realm of politics, from behind a prison wall, has again stirred up the Hoosier State with a new tale of intrigue.

This time, it appears, the former Grand Dragon of the Klan has really told of the corruption that attended his rule, and has linked his old Klan associates, and the officials who once bowed to his will, into a great conspiracy.

Stephenson has been slaving away for two years at his task of finding out the wicker around wooden chairs, and he has weaved, he says, of the prospect of serving all of his life sentences for the murder of an Indianapolis girl. He is lonely, he has said, a bit grimly, for some of his old playmates.

HE SEEKS PLAYMATES
There are vacant stools in the old chair factory," he told his chief counsel, Robert H. Moore, today. "I'm going to have company, soon. I'll give them the evidence to send me a bunch of playmates."

Many tales have been handed about, and many printed in the Indiana press, about just what Stephenson said on Tuesday to Prosecuting Attorney William H. Remy of Indianapolis, and his three special assistants during their three-hour interview.

Indianapolis prints carry stories that Stephenson "told all," that he hit high and low officials; that he revealed how he managed and paid for the campaign of Gov. Ed Jackson; that he told of ruling the Legislature, dictating which bills should pass and which should die; that he played a stellar role in the election of Mayor John L. Duval of Indianapolis; that he dabbled in the election of a United States Senator, and much more along that line.

ONLY ABOUT MAYOR
Attorney Moore, to the other hand, and coming fresh today from an interview with his newly illustrious client, said positively that Stephenson only charged that he was in the pending prosecution of Mayor Duval, Stephenson, concerned about the free publication of what he is supposed to have told Prosecutor Remy, stated the following statement, issued for him by Attorney Moore:

"I have been called a four-fingered man, and a liar, and a scoundrel, and I intend to give every bit of evidence I have. The people of Indiana know I'm not a lying man. I've been in prison every day I've been in prison since I was put in there."

Prosecutor Remy treated me with the greatest courtesy. I gave him all the evidence I possess with relation to John L. Duval. I will not take the witness stand against him, because that will not be necessary. I have arranged for all documentary evidence that exists to be placed in Remy's hands.

"There's a little seat in the chair shop next to me that is vacant, and I expect to have company before long."

REAL CLEAN-UP COMING
"I have not tried the lid on the entire Indiana situation. Remy did not ask that I do so. That will come later and announce the truth is told there is going to be a clean-up in this State that will startle the country and will benefit the State immeasurably."

Attorney Moore, when questioned about the latter part of the statement, said it was his impression that Stephenson's information covered many transactions, political and otherwise, between Indiana politicians and leaders of the Ku Klux Klan. He said Stephenson could tell the sincerity of the prosecutors by their use of the evidence he has given them already, and if they fail, Moore said, other means of bringing out the truth will be brought to bear.

"There is no foundation to the reports that Stephenson exposed corruption, committed by high State officials," Attorney Moore pronounced to believe. "He told me his discussion with the prosecutors concerned only the pending case against Mayor Duval. But there is no doubt whatever that before Stephenson is through he will tell the whole story."

"BLACK BOX" HOLDS ALL
Moore stated that he had been given instructions by Stephenson to make certain documentary evidence available to the prosecutors. For many months there has been talk of a "little black box" which was said to hold written proof of the grafting and political crimes which flourished during the Stephenson-Klan regime.

Report had it that Prosecutor Remy was armed with an order from Stephenson authorizing one of the latter's trusted associates to obtain certain of the documents from this material, and that Remy now is bent upon the search for it. The prosecutor has not returned to Indianapolis since his visit with Stephenson, and is reported by his deputies on a hunt for documentary proof against Indiana politicians.

Prosecutor Remy's two special assistants, John W. Holtzman, former Democratic Mayor of Indianapolis, and Emory W. Johnson, Republican leader, were back in the State capital today and their return preceded accounts of Stephenson's interview published in the leading dailies here.

SCHURMAN JOLTED AS
SLEEPER IS DERAILED
RIGA (Latvia) July 6. (AP)—Jacob G. Schurman, American Ambassador to Germany, was slightly jolted when a sleeping car of the Berlin-Riga express left the track last night at a Lithuanian frontier station of Jankabli. It was learned today upon the arrival here of the Ambassador that the passengers on the train were injured. They were transferred to other cars and the train eventually proceeded, two hours late.

OAKLAND BAND WILL
PLAY AT CLUB HERE
Bill Broder's band from Paradise Gardens, Oakland, will make its formal appearance at the Edgewater Beach Club Saturday night when the supper room is opened for the summer. It is announced that the band will be the first time that the supper room has been available since the reopening of the club last week under new management.

GIFT TAXES
BEGIN ON DAY
OF INCREASE

Court Rules Profits Date
From Time Donor First
Obtains Stocks in Issue

NEW YORK, July 6. (AP)—Constitutionality of the section of the Revenue Act of 1921, which provides that profit tax on securities received as gifts shall be based upon increases in value from the date on which the securities were obtained by the donor, was upheld in two decisions handed down yesterday here in the United States Circuit Court of Appeals.

The court ruling followed action brought by Mrs. Elizabeth Taft and John D. Greenway against the collector of integral revenues. Testimony showed that Mrs. Taft had received \$11,700 in Wash. stocks from her father as a gift in March, 1922, and sold them in 1926 for \$44,445. In her income tax return, she listed the profit of \$32,745, but the collector ruled that she must pay a tax on the full amount received for the stock. Payment was made under protest and suit to recover instituted.

The Greenway case record was similar. Samuel C. Coleman, Assistant United States Attorney, who represented the collector, told the court that, before the Appeals Court, said that the decisions, used as precedent, would save millions of dollars in taxes for the United States.

DAUGHTER
OF TEXAS
HERO HERE

Mrs. Bringham, Whose
Father Was Gen. Houston,
Touring Southland

Mrs. Nettie Houston Bringham of San Antonio, Tex., daughter of the late Gen. Sam Houston, Texas pioneer, is in Los Angeles for a visit of several weeks.

Before returning home Mrs. Bringham will make a tour of the scenic and historic spots of Southern California. She is the youngest daughter of the late Gen. Houston, who bravely fought for the Texans at the battle of San Jacinto.

A leader of Texas society, Mrs. Bringham is a member of the Daughters of the American Revolution, Daughters of 1812 and Daughters of the Republic. Due to a slight illness, Mrs. Bringham was unable to receive visitors on her arrival here. She is stopping at the Hotel Hamilton, 630 South Grand avenue.

Controversy in
Arizona Water
Project Denied

PHOENIX, July 6. (AP)—C. C. Cragin, superintendent and general manager of the Salt River Valley Water Users' Association, and director of the Verde district, officially known as the Verde River irrigation and power district, in a joint statement today announced that there was no controversy between the two organizations, and that they had agreed upon all working details, with the exception of one clause, which approximately 80,000 acres in the Verde district will be reclaimed.

The one clause, relating to be drafted, the principles having been agreed upon, involves the interchange of power and the effect of that power upon the operation of the two projects for the greater conservation of water, it was announced.

The effect of the interchange between the two projects, and the possible raising of the Roosevelt dam for the Salt River Project, both for water and additional power, are involved, the statement said.

It was determined, according to the announcement, that a two-foot rise of Roosevelt dam would increase by 500,000 acre feet the storage capacity of the reservoir, and the power capacity by 40,000 kilowatts per year. It was estimated that this addition to Roosevelt dam would cost \$1,500,000.

BRAZIL HAS SNOWSTORM
Buenos Aires Violently Lashed and
Ship in Harbor Sinks

Buenos Aires, July 6. (AP)—A violent snow and rainstorm was hitting this city and a great part of the country today, in some sections of the province of Buenos Aires, Santa Fe, Cordoba and Mendoza, the fall of snow has reached unusual proportions, presenting a slight seldom seen in this country.

The Bolivian steamer Presidente Saverio sank in Buenos Aires harbor as a consequence of the storm. The twenty-two men of the crew were rescued.

SAN DIEGO SEWAGE
ACTION DUE SATURDAY

SACRAMENTO, July 6. (AP)—The State Board of Health at its meeting in San Francisco on Saturday is scheduled to take action on the San Diego application for a sewage disposal permit which has been pending several weeks. San Diego seeks to erect a sewage works in the Anuro Vista tract, with the disposal of the effluent being entered at a point in the Pacific Ocean, fifty feet offshore.

GERMANS AT DINNER
POISONED BY FOOD

CLEVELAND, July 6. (AP)—More than a score of prominent Cleveland German residents, guests at a dinner in honor of Dr. Heinrich Reiche, German Consul here, were recovering today from the effects of poisoning resulting from eating food at the banquet last night. Those made ill were Kraft, von Leginski, nephew of President Hindenburg of the German republic.

OIL PRODUCTION DROPS
MEXICO CITY, July 6. (AP)—The Texas Oil Company of Mexico today notified the Department of Industry and Commerce that it will stop all oil production because of a decrease in its oil production.

Convention of Locomotive
Engineers Takes Vote

Secretary-Treasurer Found
Lax in His Duties

CLEVELAND, July 6. (AP)—C. E. Lindquist, secretary-treasurer of the Brotherhood of Locomotive Engineers, was found guilty of "laxity, carelessness and indifference" in the conduct of the engineers' financial undertakings by a vote today of the triennial convention in session here. The convention was to decide on the penalty later today.

Similar Charges Pending
Against Three Others

WASHINGTON, July 6. (AP)—The expressed desire of the National Guard Association that the State forces be embodied by law in the Army of the United States in peacetime as well as when in the Federal service, resulted today in publication of a special order by the War Department naming Brig.-Gen. Charles C. McArthur, National Guard, senior member of a committee to study the subject.

The other members of the committee are Col. Lytle Brown, Engineer Corps, Regular Army; Col. Charles W. Rogers, adjutant-general of the United States; and Maj. Fred Llewellyn, Regular Army.

The order directs that the committee study the subject of the National Guard Association at its annual convention last November proposing certain amendments to the National Defense Act and report to the Secretary of War effective the proposed changes which might make the report be completed prior to October 1 in order that recommendations to Congress on the subject can be submitted. The final report of the whole committee will be in Washington.

The guard-association resolution was adopted by the National Guard Association of the United States which places the National Guard in the Army of the United States when the State forces have been called into the Federal service in time of emergency. Legal questions are involved in the proposed changes which might make a radical alteration in the peacetime relationship of the State troops to the Federal government, and it is in that connection that the study has been ordered.

Murder of Two
St. Paul Women
Baffles Police

ST. PAUL, July 6. (AP)—Two women were found slain in an apartment here today under circumstances that apparently baffled police, who said tonight they were without a tangible clue.

Mrs. Jessie Bell Dubois, 32 years of age, and Miss Anne Grenville were the victims. They had been dead more than twelve hours when Charles M. Hutchinson, a friend of Miss Grenville, called on police and said he had taken Hutchinson to the women's home, found the bodies. Hutchinson, who is held by the police, declares he knows nothing of the slaying.

From the position of Miss Grenville's body, which was fully clothed, police surmised she had unwittingly surprised the assassin who shot to silence her.

Robbery was not the motive, as about \$35 and a diamond ring were untouched.

PREMIUM PLAN SCORES
Webb Rules Exchange of Stock for
Purchase Equal to Sale

SACRAMENTO, July 6. (AP)—Corporations seeking to extend their business by giving stock as premium for purchases of their products have been attacked by an opinion by Atty.-Gen. Webb holding such transactions comprise sales of stock and according to the Corporation Department before such activities can be carried on. The opinion was returned in connection with an investigation of the activities of Lomon Corporation, San Francisco tooth-paste manufacturers.

PROPELLER INJURIES
FATAL TO AVIATOR

PITTSBURGH, July 6. (AP)—Clyde Emerick, Dayton, O., aviator, injured while making a landing at the Pittsburgh airport on June 25, died of a heart attack today. The propeller of the plane struck him in the head, fracturing his skull, when he was thrown from the cockpit.

TROUBLE A BRUIN IN THIS TALE
Swimmer, Bare Himself, Chased by Bear in Chicago But
Cynics Scoff at Bear Facts and Victim Couldn't Bear
That, So He Starts Hunt and Gets Proof

CHICAGO, July 6. (AP)—Michael Dugan, 25 years of age, was swimming to his home last night after a swim at the beach. As he passed a railroad track a large black shape emerged from the darkness and gave voice to a loud "woof."

Michael, clad only in a bathing suit, was equipped for sprinting. His speed was stimulated by grunts from the animal which pursued him. As he ran he shouted. Most of South Chicago heard him.

Rescuers found Michael clinging to a sapling. He said he had been chased by a bear—a great big black bear! There was no doubt about it.

BEING THIN PROVES COSTLY
Artist Awarded \$4500 for Repainting Portrait to
Make Woman Appear Less Portly

NEW YORK, July 6. (AP)—George DeForest Brush of Dublin, N. H., was awarded \$4500 today for his services in repainting a portrait of Mrs. Florence Brooks-Aten of Park avenue to make the painted figure, among other things, less portly and so more pleasing to the subject.

Mrs. Brooks-Aten, a sportswoman and philanthropist, commissioned Brush, who is a member of the National Academy, to paint her portrait when she was at her summer home, Chinochee, thirty miles from the artist's New Hampshire studio, in 1923. She agreed to pay \$5000 after the first sitting and \$5000 more on delivery.

The first sitting, she considered of "gorgeous coloring," but thought it had a "cow-pasture background." Also she considered that one shoulder in the picture gave the impression

ARMY TO STUDY

ILLINOIS GANG
CHIEF ON TRIAL

Two Birger Henchmen Also
Face Murder Charge

Accused Slayers of Mayor
Lose First Tilt

Art Newman Battles for
Separate Hearing

BENTON (Ill.) July 6. (AP)—Charles Birger, Southern Illinois gang chief, and two members of his gang, Art Newman and Roy Hyland, lost the first tilt in the preliminary motions at their trial for the murder of Mayor Joe Adams of West City which opened here today.

A motion to quash the indictment against the gangsters was overruled by Circuit Judge Miller. The three defendants pleaded not guilty, following their formal arraignment by State Attorney Martin, who said he would seek a hanging verdict.

Court was adjourned after motions for separate trials were presented. The ruling probably will be made tomorrow. Newman, one of Birger's former lieutenants, asked to be tried alone, while Birger and Hyland requested a joint trial.

When the court opened the courtroom was opened this morning, the wind-lashing raindrops of the Courtroom were filled with people, many of them, to sit to eight during the day, there was little to indicate that one of the most notorious gangsters in the coal belt, and two of his former lieutenants were to fight here for life.

Newman and Birger, who are now at bitter odds, avoided each other's glances and only once or twice were seen to look in the other's direction.

Birger, his face reflecting a habitual half-smile, seemed to have assayed the role of the tender father, playing with his children, 8-year-old Charles and 6-year-old Elsie.

DISMISSAL
OF SCRIPPS
SUIT ASKED
Ohio Group Attacks Plea
of California Woman for
Accounting of Profits

CINCINNATI, July 6. (AP)—Dismissal of the suit filed by Mrs. Josephine Scripps, Miramar, Cal., executrix of the will of James O. Scripps, against Robert Paine Scripps, Westchester (N. Y.) executor of the will of Edward W. Scripps, former head of a newspaper chain and trustee of a trust agreement between Edward W. and Robert Paine Scripps, entered into November 23, 1923, was asked in three separate answers filed in Federal court today.

Mrs. Scripps seeks an accounting under an agreement between her deceased husband and Edward W. Scripps twenty years ago, providing for distribution of profits of their newspaper syndicate.

In its answers, Robert Paine Scripps, an executor of Edward W. Scripps, and a trustee under the trust agreement, and the E. W. Scripps Company, Hamilton, O., deny existence of the agreement between James O. and Edward W. Scripps. They further assert that if Mrs. Josephine Scripps ever had a valid claim against the estate it now is old and inoperative. They had no intimation of the claim until the suit was filed, they assert.

Steel Common's Sudden Revival in Strength Feature of Day

Copyright, 1927, by New York Evening Post, Inc.

NEW YORK, July 6. (Exclusive)—Steel common experienced a sudden revival of interest in the early afternoon. Just when it appeared that the market was about to close with a decline, a sudden change of sentiment took place, and the price of steel common rose sharply. This revival was the feature of the day's trading.

THE INVESTOR

Building-Loan Associations Help in Solving Problem of Home Owners

Copyright, 1927, by New York Evening Post, Inc.

NEW YORK, July 6. (Exclusive)—The problem of financing home construction has been reduced to about 50 or 60 per cent of the appraised value, it would be possible to place the mortgage with a building loan association. These associations are organized to help home owners by providing them with the necessary funds to complete their homes. They do this by purchasing the property and then selling it to the home owner at a profit.

\$850,000

Central States Edison Company

One-Year 5% Secured Gold Notes

Dated June 15, 1927 Due June 15, 1928

Interest payable December 15 and June 15 without deduction for Federal Normal Income Tax not exceeding 1%. Coupon notes in denominations of \$1,000 and \$500. Redeemable on 30 days' published notice at 100% and accrued interest. Principal and interest payable at Northern Trust Co., Chicago, Trustee.

A letter from Mr. E. A. Shider, President of the Central States Edison Company, addressed to the holders, is summarized as follows:

BUSINESS: The Central States Edison Company will own and operate public utility properties and will supply through its subsidiaries diversified public service in the States of Nebraska, Kansas, Oklahoma and Alabama. The total population of the communities to be served is upward of 31,500.

SECURITY: These Notes will, in the opinion of counsel, be the direct obligation of the Central States Edison Company and constitute its sole funded debt, and will be secured by deposit with the trustee of substantially all of the outstanding preferred and common stocks of the subsidiary companies except directors' qualifying shares. The subsidiary companies are free from bonded debt with the exception of \$141,900 first mortgage bonds of one subsidiary remaining outstanding, non-callable until June 1st, 1931.

EARNINGS: Consolidated income account of the properties to be owned, as reported by Messrs. Haskins & Sells, Certified Public Accountants, for 12 months ended December 31, 1926, shows gross earnings of \$182,341.45. During the same period, net earnings, before taxes and interest on underlying bonds, amounted to \$99,310.71, as compared to annual interest requirement of \$42,500 on this issue or approximately 2.30 times such requirement.

PURPOSE OF ISSUE: The proceeds of this issue will be used for the acquisition of properties and for other corporate purposes.

MANAGEMENT: The active operation of the companies will remain in the hands of those previously associated with the properties, under the supervision of one of board experience in the public utility business.

Legal details in connection with these notes have been passed upon by Messrs. Chapman, Cutler & Parker, Appraisers, as by Messrs. Day and Zimmerman, and audits of the books have been made by Messrs. Haskins & Sells, Certified Public Accountants.

These notes will be delivered when, as and if issued and delivered by us, on or about July 14, 1927, in the form of interim certificates of the Central States Edison Company.

6 1/2% First Mortgage Bonds

with an

Attractive Conversion Feature

KILLEFER MANUFACTURING CORPORATION

First Closed Mortgage 6 1/2% Sinking Fund Convertible Gold Bonds, due 1947, are secured by a first closed mortgage on all fixed properties of the Corporation, which are appraised at approximately \$600,000, or over 2.4 times the amount of this issue.

The Corporation conducts a business, originally established in 1887, manufacturing and distributing road-making and agricultural machinery, and specializing in equipment especially designed for use with the famous Caterpillar Tractor.

No earnings for the last 2 1/4 years have averaged over 5.60 times maximum interest charges on these bonds—emphasizing the valuable conversion rights into Corporation's 7% Convertible and Participating Preferred Stock. The latter issue participates equally with Common Stock in all dividends declared over 7% and is in turn convertible into Common on an attractive basis.

Price 99 and interest, to yield about 6.60%

\$450,000

HOTEL EMBASSY

LOS ANGELES

First Mortgage 7% Serial Gold Bonds

Test Exempt in California Normal Federal Income Tax to 25% Paid
Dated July 1st, 1927 Due Serially July 1st to July 1st, 1942

INTEREST payable January 1st and July 1st at the office of the Trustee. Denominations \$1000, \$500 and \$100. Redeemable on any interest date at 102 to 105 and accrued interest. Interest payable without deduction for the Normal Federal Income Tax up to but not exceeding 2%.

UNION BANK & TRUST CO., LOS ANGELES, TRUSTEE

Security: This bond issue will be secured by a Closed First Mortgage on the land owned in fee and building to be erected thereon. Appraisals show the value of same to be \$776,000. This loan represents approximately 58% of the appraised value of the property.

Borrowing Corporation: The Embassy will be owned and managed by the Embassy Holding Corporation, of which George Marcell is President. Mr. Marcell and his associates are prominent hotel and apartment operators well known in Southern California.

Earnings: Estimated gross income of The Embassy approximates \$236,520 annually, and after ample allowance for operating expenses, taxes and insurance, vacancies and depreciation aggregating \$112,108.00, net earnings will be in excess of \$124,000 annually—four times maximum annual interest charges.

Completion Guarantee: Completion of the building free of mechanic's and other like liens will be guaranteed to the Trustee. The erection of the building is under contract with Arthur Bard & Co., recognized leaders in hotel and apartment construction. Full insurance will be carried and a title insurance policy will be issued by the Title Insurance and Trust Company.

Legislative incident to the issuance and sale of these bonds have been under the supervision of and have been approved by Messrs. Newman, Haas, Agius and Schwartz, Counselors, Los Angeles, California.

NEW YORK CURB STOCKS

NEW YORK, July 6. (AP)—Buying of oil and a few public utility issues gave the curb market a strong undertone today.

Trading was more active than for a number of recent sessions. Market rumors and favorable dividend developments were responsible for the strength of a few issues.

Carib Syndicate again assumed a position as leader of the oil group, gaining 1 1/2 points to 20, a new peak. Crooke also was bought in large blocks, but scored only a fractional gain. Margay Oil touched 2, a new maximum, after an advance of more than 2 points.

Electric Investors and Electric Bond and Share displayed outstanding strength among the utilities, both moving up more than 2 points. Celanese issues were again in brisk demand, while Dumbell International continued its previous rise. The shares were bid up sharply, following Rubber and Firestone preferred gaining more than 3 points. Buell Motor sold up to 1 1/2, a rise of 1/2.

Railway shares were in fair demand, the New York Central, Atlantic Coast Southern and Pittsburgh and Lake Erie gaining 1 to 2 points. Westinghouse Airbrake (when issued) moved up to a new maximum.

Only a few odd spots cropped out, including Gulf Oil of Pennsylvania, Marine Corporation, Royal Baking Powder, Mercantile Candy Store, and a few others.

The closing prices in certain cases are as follows:

Alcoa, 10 1/2; American Cyanamid, 10 1/2; American Lumber, 10 1/2; American Paper, 10 1/2; American Steel, 10 1/2; American Wire, 10 1/2; American Zinc, 10 1/2; American Lead, 10 1/2; American Copper, 10 1/2; THREE PERSONS WANT TO GUIDE HER LIFE

Priscilla Moran
Child Actress Listens as Judge and Attorneys Argue Over Her Guardianship

Priscilla Moran, 9-year-old actress of the films, wringed uncomfortably in a hard courtroom seat yesterday while a grave judge and three sets of attorneys considered her case. For this child, two judges were involved, for the first matter on the calendar of Presiding Judge Burnell was to decide what other judge should hear about Priscilla, Judge Burnell sent the case down to Judge Miller.

ARGUMENTS STARTED IN MORAN CASE

Priscilla Moran, 9-year-old actress of the films, wringed uncomfortably in a hard courtroom seat yesterday while a grave judge and three sets of attorneys considered her case. For this child, two judges were involved, for the first matter on the calendar of Presiding Judge Burnell was to decide what other judge should hear about Priscilla, Judge Burnell sent the case down to Judge Miller.

EQUITY SNARES FILM PLAYERS

Seven Hundred Actors Vote to Join Union Group

Virtual Strike Threat Made if Producers Protest

Regulated by the golden promises of Frank Gilmore, high official of the Actors' Equity Association, some 700 actors and actresses, comprising the bulk of leading film players, dropped a thunderbolt into the peace and quiet of Hollywood last night when they made the first move in an attempt to force the closed-shop principle on the entire motion-picture industry in a mass meeting at the Writers' Club.

SECRET SESSION

As to the third item, film players went on work on schedule, regulating their hours according to the needs of the pictures on which they are working.

How far have you progressed along the road you determined to follow some years ago? Are you better off now?—your own boss?—financially independent? Plenty of opportunities exist in Southern California—new ones turn up every day—and out of the mass of valuable information in the daily "Business Opportunities" of Times Want Ads you can surely find something to make your way ahead.

'SLEEP' ARRESTS WILL BE ASKED

Chiropractor and Operator of Hospital Under Fire

Dr. Parrish's Aides Refused Right to See "Victim"

Court Order Gotten to Halt Removal of Patient

Complaints asking for the arrest of Dr. William J. Peacock, chiropractor who is treating Mrs. Clara Drummond, victim of a semi-coma for ninety-four days, and Mrs. Harriet Cunningham, proprietress of the Cunningham Hospital, where she is under treatment, will be asked today on the grounds of operating a hospital without a license at the request of City Health Officer George Parrish, he stated last night.

RESTRaining ORDER

Earlier in the day Walter E. Drummond, husband of the woman, had obtained from Judge Burnell a restraining order preventing Dr. Parrish, Dr. Marcus, Dr. Rosanoff and others from removing her from the Cunningham Hospital or interfering with the treatment she is receiving from Dr. Peacock and his associates.

DETERMINED ON TEST

Apparently prepared to resist all efforts of the city health department or its representatives to examine the girl, Dr. Peacock decided last night that the hospital sign had been taken down from the Cunningham Hospital, that it now is a private residence, owned by Mrs. Cunningham, and that Drummond, the woman's husband, has taken up his residence there also.

CHILDREN ON PARK PROGRAM

A group of the Park Board-Kelly Middle entertainers will offer specialties on the afternoon program of the City Park Board and the Lincoln Union Association at present Park Sunday. Harold Roberts and his Golden State Band will play. The concert is scheduled to begin at 1:30 p.m.

TRIAL OF NEGRO OFFICERS OPENS

Police Detectives Charged With Murder

Relatives of Slain Youth Relate Version

"Planting" of Gun Asserted by Victim's Mother

Declaring he thought his son had been shot by burglar, John Faulkner yesterday in Judge Craig's court gave his version of the shooting of Sam Faulkner, for whose death M. B. Sheffield and Frank Randolph, negroes, former police detectives, are being tried on a charge of murder. The two officers are charged with having killed young Faulkner, also colored, during a riot on the home of his sister, Mrs. Clara Harris, on April 24, last.

The Faulkners lived in a house situated to the rear of that occupied by Mrs. Harris, according to the witness, who said he and his son went into the house to investigate noises that had aroused their attention.

CLIMBED IN WINDOW

"The door was locked," said Faulkner, "and my son and I climbed through a window in the house."

The witness stated he heard a shot and saw his son fall when the latter had opened a door leading into another room in the house.

"I heard somebody say, 'Let's get that son of a bitch,' and I saw them go in."

"Then I saw from the house, I thought they were burglars."

Richard Faulkner, mother of the slain son, who was in the house when the shooting took place, said she saw the two officers climb up the side of the house and enter the room where the shooting took place.

During the morning session the jury heard the mother's testimony.

The trial will be resumed this morning.

UNIVERSITY COLLEGE

ENROLLMENT GAINS

NUMBER OF SUMMER STUDENTS 544 MORE THAN FOR LAST YEAR

That the number of students enrolled at the middle-city branch of the University of Southern California exceeds by 544 those taking the course last summer was shown by the report of Dr. W. W. MacQuarrie, made public yesterday.

Classroom registrations show an increase of more than 1000. Each group began its work, no classes being held on Friday evening, leaving that free for week-end recreation and trips.

Two popular subjects for summer study, the director states, are sociology and history, and adults are attending convenient hour classes in public speaking, Spanish, engineering, psychology, German, political science and home economics.

This session of the summer quarter of university college opened on June 12 and will close August 6.

ASSESSMENTS APPROVED

Confirmation of assessments for the following public improvements was voted by the City Council yesterday:

Chicago street between Twenty-eighth and Montclair streets; Ashbury street between Inland street and Orange street; La Mirada avenue from Western avenue to Wilton place; Villetta street between Maria avenue and Fisher street.

SPUR TRACK AFFORDED

The Santa Fe Railway's application for permission to construct a spur track on Willow street was granted by the City Council yesterday.

CHARGED WITH POSSESSION AND MANUFACTURE OF LIQUOR AND ATTEMPTING TO BRIBE OFFICERS

Louis Santolillo was taken into custody early yesterday at 2215 South Central avenue by a squad of Federal prohibition agents.

Santolillo, according to Assistant U. S. Attorney Benjamin, offered \$400 to "buy off" the officers making the arrest. A fifty-gallon still, several barrels of moon and other equipment were seized.

Petition Filed to Keep Open Hotel Ventura

SAN FRANCISCO, July 6. (Reuters)—The Bank of Italy and officers of the Hotel Ventura, \$500,000 hotel at the Ventura county seat, filed a petition with the Supreme Court today for a stay of execution of an order issued in Ventura Superior Court June 23, last, demanding that the hotel close its doors because of alleged act convictions. The petition seeks to keep the hotel open until the District Court of Appeals rules on an appeal now pending.

ARREST MADE HERE ON UTAH WARRANT

Deputy Sheriff Vojak yesterday arrested Bert Hanni on a warrant issued in Provo, Utah. Hanni is accused of the theft of a gold watch from R. I. Goodwin, proprietor of the People's Co-operative Store in Provo. The timepiece was presented to Goodwin by employees of the store in 1915 and was said to have been found on Hanni when he was taken into custody by the deputy at the Plaza Hotel, Orange county. The prisoner was held at the County Jail awaiting extradition proceedings.

Woman's Body Washes Ashore Near Beach Club

A woman's body washed ashore near the Westport Beach Club at Venice yesterday afternoon and was discovered by employees of the club. The police were called and Detective Lieutenant Christensen and Officer Miles of the Santa Fe division responded. They examined the body and expressed the opinion that it had been in the water two or three days.

The woman was between 30 and 35 years of age and wore a light blue dress, a black coat with a fur collar, tan stockings and black pumps. Her hair was black and bobbed. The body was taken to the O. J. Kirkland undertaking parlor.

The Executor of the estate was on a world tour

—and while he was away a situation arose in connection with a valuable piece of business property that required instant action. Cabled messages brought no response. The Executor was "somewhere in Brazil." The estate lost over \$100,000 as a result of the heirs being unable to act.

Had a trust company, instead of an individual, been acting for the heirs, there would have been no loss.

Don't fail to have a lawyer draw your will and name this old reliable fiduciary institution as your Executor and Trustee.

Write or call for complete information.

JULIAN MEETING TO BE GUARDED

(Continued from First Page)

responsible for it that it will cause immediately. We will permit no one to attempt to intimidate the grand jury." Davis indicated that drastic action will be taken if the action is repeated.

While the District Attorney was making plans for the approaching battle to maintain the indictment against more than fifty prominent Los Angeles citizens, the Los Angeles Stock Exchange, through its president, John E. Jardine, offered its fullest co-operation in every effort tending to improve stock market conditions and procedure.

EXCHANGE ATTITUDE

In stating the attitude of the stock exchange to Davis, Mr. Jardine said:

"It is the known desire of the body of governors and the intent of the entire stock exchange to at all times co-operate to the fullest extent with the District Attorney's office."

"The membership of the Los Angeles Stock Exchange is composed of the best of governors, taking steps to improve the operation of the exchange. The first move in this direction was taken some six weeks ago when a ruling was adopted requiring the registration of all stock listed on the exchange."

"The membership of the Los Angeles Stock Exchange is composed of the best of governors, taking steps to improve the operation of the exchange. The first move in this direction was taken some six weeks ago when a ruling was adopted requiring the registration of all stock listed on the exchange."

Trout Will be Distributed in Near-by Water

Approximately 500,000 small rainbow trout will be distributed in the headwaters of the creeks in San Bernardino, Riverside and Los Angeles counties during the next two weeks, according to Deputy Fish and Game Commissioner Baader, in charge of the Southern California district.

The trout were propagated in the State fish hatchery at Northridge, Big Bear Valley. Baader will supervise the operations of placing them in the public waterways.

Two men hurt as cars collide in morning fog

In the early fog of yesterday morning two automobiles met in a head-on collision, which resulted in one car and seriously injured two people near the Rancho Golf Club.

One of the machines was owned by Stratford H. Johnson of 681 South Burlington street, who told police at his home later that he had loaned the car to a relative, M. R. Penholtz of 2930 East Thirty-eighth street, who was driving the other machine.

M. R. Penholtz, who lives at 1838 North Wilton street, was cut and bruised, his right arm being so badly hurt that it may have to be amputated.

A. R. Green, 222 West Seventy-third street, was cut about the body and legs and his body crushed.

Manila Has Hospital Day

To create interest in local hospitals, Manila held a hospital day recently. The hospitals held open houses for visitors and at night a torch parade and program were featured.

All hospitals were represented in the parade. J. J. Bono, acting president of the university, was principal speaker at the

PEITION METHOD PLAYED

**Salemen Rouse
of Councilmen
Post Companies
Object of Attack**

**of 75 Per Cent
May Be Demanded**

What was character-
istic of the high general sales methods
employed by the companies manufacturing
and selling street lights was
the method of the City
Council yesterday.

The proposition that came out of
the discussion on the subject
of the 75 per cent petition in-
crease of the street lighting system
was that the Council should
adopt a resolution providing for the instal-
lation of a new lighting system.
The proposition was that the Council
should order the installation of a new
lighting system on the ground that the
present system was inadequate and
that the new system would be more
economical.

SALESMEN WELD
City Attorney Whitehead,
called for an opinion on the
proposition that the Council
should order the installation of a
new lighting system on the ground
that the present system was inadequate
and that the new system would be
more economical.

6% INVESTMENT CERTIFICATES
Issued by PRUDENTIAL BUILDING-LOAN ASSOCIATION, are distinctly a high grade, conservative investment. They merit your serious consideration for investment of July funds. They are secured:

- First—by conservatively appraised, diversified mortgages.
- Second—by the one-half million dollar paid in guarantee capital stock.
- Third—unlimited liability of stockholders.
- Fourth—strict State supervision.
- Fifth—conservative management.

Endorsed By The State Legislature
In 1927 the State Legislature recognized the soundness of this form of investment by making certificates of California Building-Loan Association legal for funds of executors, administrators, guardians, receivers, trustees of every kind and nature, funds of all insurance companies, and cemetery associations.

Prudential 6% Certificates are issued in any amount from \$100.00 up to even hundreds. Tax exempt in California.

Certificates issued on or before July 11 will bear interest from July 1.

PRUDENTIAL BUILDING-LOAN ASSOCIATION
523 South Spring St.—LOS ANGELES

FOUND HIDING IN VACANT HOUSE

Mystery Shrouds Three Days Fasting

Bernadine Dowling and Her Collie, Brownie

With her Scotch collie, Brownie, in close attendance, a young woman who says her name is Bernadine Dowling, and that she is 28 years of age, yesterday morning was found by police officers in a vacant house on Union Pacific avenue, where she had been for three days without food or water. She refused to tell where she had come from or what she was doing there, and insisted that she was on her way on foot to find an uncle named Clouston, in Elizabethton, Tenn. Her mother and father, she said, live in Hollywood, but who they are and where they live she also chose to keep a mystery.

A postal card which she had with her, a two-year-old postmark dated from the city of Elizabethton, Tenn., was the only clue to her identity. Western avenue prompted an investigation, which revealed only an empty house, so she was taken to the Minnie Barton Home, 21 S. Trinity street, until something further can be learned about her.

At the home she still refused to talk about herself, her eyes brimmed with tears whenever she was spoken to, and she steadily refused to touch a mouthful of food.

Brownie, Mrs. Barton said, ate ravenously, and if ever a dog tried to talk, that one, she continued surely was trying to tell them the story of his mistress's predicament.

**Hold-up Victims
Fail to Identify
Suspects Held**

Two men who were suspected of being the ones who held up and robbed Clarence Leonard and A. Gallagher, employees of the Carlton Hotel, 539 South Figueroa street, the 4th inst., were not identified by Leonard and Gallagher yesterday. Pico Ramble, a local featherweight boxer, and Howard Hayden, the two suspects, were arrested by detectives Tuesday night, and from weapons found in their possession police concluded that they might be guilty of the Carlton robbery.

In spite of the fact that the men refused could not identify them, Hayden and Ramble were held at the City Jail on a charge of suspicion of grand larceny.

**Secretary for
Each Member of
Council Voted**

A proposal that fifteen secretaries at \$100 a month, one for each Councilman, be employed by the city was contained in a resolution introduced by Councilman Colden at the City Council meeting yesterday.

The new secretaries will be exempt from civil service under the provisions of the resolution and in order to secure this exemption a special committee of Councilmen was appointed by President Bonelli to confer with the Mayor and the Finance Committee.

The committee personnel includes Councilmen Randall, Barnum and Ingram. The resolution was adopted by unanimous vote and the matter referred to the Mayor and the Finance Committee.

The Councilmen maintain that each should have a secretary to handle correspondence in connection with their work as Councilmen and to handle telephone calls and visits from their constituents when the Councilmen are in Council or committee meetings.

UNITED FIGHT ON DISEASE URGED

"General" Suggested for War on Tuberculosis

Prof. Winslow Addresses Health Institute

Dr. Browning Reviews Bills Passed in State

That the health officer should be the general in charge in each county and city in the campaign for the control of tuberculosis with a "full time" director of a tuberculosis division of the health department under him, was a point stressed by Prof. Charles E. A. Winslow of Yale Medical College and member of the board of directors of the National Tuberculosis Association in his address on "Modern Prevention of Tuberculosis," before the Public Health Institute at Pacific Hall, 1816 South Figueroa street, yesterday.

"Tuberculosis is the most important communicable disease," he stated. "All voluntary agencies for its control should center around the health officer. All co-operative machinery should be put into his hands. It is his public-duty to prevent disease. Voluntary organizations can quit overnight. When a program is organized by voluntary agencies it should be as soon as possible taken over by the municipality. Voluntary agencies should be the Health Chamber of Commerce opening up new fields of service for the health department to operate after organization."

DEATH RATE CUT
Prof. Winslow pointed out that the death rate of tuberculosis today is only one-fifth of what it was fifty years ago. He advocated the focusing of preventive attention on the child and credited the Los Angeles County Summer Health Schools conducted under the auspices of the Los Angeles County Public Health Association as a most valuable contribution to public health. Nutrition classes, supervision of the child with the mother and the use of idle school buildings during the summer in pre-ventorium work are done in this city, Prof. Winslow pointed out as an ideal practical, efficient and economic program.

The public health exponent expressed the hope of the discovery by science of a tuberculosis vaccine to aid in the stamping out of this disease. He stated that Calmet's vaccine given by mouth to babies and calves in the first few days of life may prove effective. Of treatment given to several thousand babies results seemed encouraging, he said.

Prof. Winslow defined the never idea of isolation as involving personal hygienic care of the patient rather than separation of the patient from his home and family. The most important factor in the control of the disease he stressed as the building up of vital resistance.

TRAVELING X-RAY PLANNED
Dr. C. C. Browning, president of the California Tuberculosis Association, gave a brief review of the various legislative bills now in the State for the control of tuberculosis. A traveling x-ray laboratory with dark-room fitted on a truck, he announced would be added to the equipment of the Chest Clinics of the State Tuberculosis Association and Bureau of Health for work in rural districts. This traveling clinic will go to outlying communities and make examinations of chests of school children, develop the plates and render reports of the findings.

Dr. J. L. Pomeroy, county health officer, stated that Los Angeles Public Health Institute was the result of a demand for a general public health program which had its inception in the tuberculosis institute held here last summer, partly financed by the State and National Tuberculosis Association for a limited group of weeks.

TUBERCULOSIS EXPENSIVE
"Tuberculosis is the most expensive disease," he said. "It at present has a 75 per cent wastage. Only 25 per cent are saved in the sanatoriums and hospitals. This is due to the fact that only advanced cases are brought in."

"It is the duty of the health department to prevent disease. Most of our machinery is to cure. We need more facilities to prevent tuberculosis, more nurses and more home care."

Dr. J. Buchanan, director of Olive Sanatorium, stated that 80 per cent of tuberculosis cases could be cured if brought into the sanatorium early enough. Owing to the difficulty of the tuberculosis patient and the fact that people come to Southern California from all parts of the world, Los Angeles faces a great problem, said Dr. Buchanan.

At noon today a luncheon will be given at the Windsor Tea Rooms in honor of Prof. Winslow by California State Organization Public Health Nursing Unit No. 5. Mrs. Helen Halvorson will preside. Miss Isabel Stewart, professor of public health nursing at University of Columbia, will speak on educational advantages of public health nursing.

BUSHMAN LOCATED

Actor Sends Radiogram Saying He's Bound for Orient

A radiogram from the Empress of Canada, a Japan-bound steamer, received by his son yesterday, explained the sudden disappearance of Francis X. Bushman, motion-picture actor, who had not been heard from since he left his Whittier Heights home ten days ago. Immediately after completion of his latest picture Bushman departed ostensibly for a week-end trip to San Diego and it was not until he was needed in the studio that his absence was noted. Then it was learned that no one where he was and no information as to his whereabouts was obtained until yesterday.

The actor sailed from Vancouver, B. C., last Thursday, according to the range, for a two months' vacation in Japan and China. It will be the first relief from picture-making toil that the actor has enjoyed since he returned to accreditation, except a two-day trip to San Francisco between the making of his last two productions. He will return the latter part of August.

TWO TAXI DRIVERS HELD ON WRIGHT ACT

David Kaplan, 27 years of age, and Edward Carroll, 25, who said they were taxi-cab drivers, were arrested in an apartment at 1316 Wilshire Boulevard by Detective Lieutenants Cornish and Sgt. Sweetnam yesterday afternoon. Two women with them at the time were not held. The prisoners were locked up on a Wright Act charge.

Bullock's Open Until One o'Clock Saturdays

TILLAMOOK preserves all the flavor of the old Cheddar process

The good old Cheddar process of making cheese originated in Cheddar, England. It has never been improved upon. In Tillamook, America's "little Holland," skilled cheese makers make sure every pound brings out the full richness of five quarts of whole milk. Making cheese is the life work of these men. They use milk from the finest cows. The green pastures of Tillamook make the milk sweet and rich.

Year after year Tillamook (Cheddar process) cheese wins prizes. That same quality is the quality you get. For prize winning cheeses were taken from regular "makers."

Cheddar Balls

Mix one cup of grated Tillamook cheese with 2 tablespoons of flour, 1/2 teaspoonful of salt and a few grains of cayenne. Add two egg whites beaten stiff, using one level tablespoonful for each ball. Roll in fine, dry cracker crumbs and fry in deep fat or salad oil until a delicate brown. Drain on paper. Serve with salad if desired. Alice Bradley, Principal, Miss Farmer's School of Cooking, Boston.

Tillamook comes to you just as it leaves the sunny kitchens—unchanged in full flavor—or richness. Look for Tillamook on every slice and loaf. Write for our 32-page booklet. Tillamook County Creamery Association, Tillamook, Oregon. Twenty-three cheese kitchens owned and operated cooperatively by the dairymen of Tillamook County.

TILLAMOOK Full Cream CHEESE

Food value of 3 quarts of milk in every pound.

WESTMORE 4088

1,800,000 cups were served at the PANAMA-PACIFIC INTERNATIONAL EXPOSITION

4 o'clock Tuesday afternoon in St. John's Church, West Adams street, with Rev. Charles Farlow officiating. The dainty bride was lovely in frock of white georgette with small hat to match, and a corsage of gardenias and lilies of the valley completed the costume.

Miss Helen Heath, daughter of Mr. and Mrs. Ralph Heath, in gown of pink crepe with dainty corsage of gardenias and lilies of the valley, was the only attendant while Theodore Botsford served Mr. Lewis as best man.

Mr. and Mrs. Lewis are honeymooning at Del Monte, and Mr. Lewis is entering the officers' training camp there.

After August 1 they are planning to return to Los Angeles to make their future home.

Only members of the immediate families were present at the ceremony. The bride is one of the most popular members of the younger set here, having passed most of her life in Los Angeles, and is an alumna of Marlborough School.

There will be a number of charmingly appointed affairs given in honor of Mrs. Lewis after her return from the wedding trip.

One of the lovely affairs of the day will be the luncheon and bridge party with which Mrs. Walter Allen Francis and her attractive daughter, Miss Dorothy Francis, are entertaining at their home 336 South Oxford avenue, the affair to complement Mrs. Norman C. Wells, a college chum, and Mrs. Alfred Harrison, who has been a most intimate friend of Mrs. Francis's since kindergarten days.

Twenty-four guests have been bidden and among the out-of-town guests will be Mrs. Ambrose Frederick Edwards and her daughter, Mrs. Flora Higson of Piedmont.

Beach Luncheon

Among the unique luncheons of recent date was the beach luncheon given at Club Casa Del Mar, Santa Monica, by Miss Mary Quinn, Miss Frances Lelertz, and Miss Mary Catherine Bellport, three of the most popular members of the graduating class this year at Immaculate Heart College in Hollywood.

The guests all being members of the class. Swimming events were the interesting features of the day and the luncheon table was most cleverly arranged, the beach motif stressed and artistically carried out in the centerpieces and the favors which were intertwined with the class colors, blue and white.

Miss Quinn is the daughter of Mr.

and Mrs. Arthur Rufus Peck of Irving Boulevard who are passing the season at Arrowhead Springs. They were joined over the Fourth of July holidays by their son, Aldrich Rufus Peck, and C. Ralph Senterby. The Pecks are building a mountain bungalow at Arrowhead.

Mr. and Mrs. J. Harvey McCarthy are also enjoying a delightful sojourn at Arrowhead Springs.

Motor Tour

Mr. and Mrs. Per Lee Snyder of Mission, O., with their two children, Mary Jane and Helen Snyder are enjoying a delightful motor trip having returned out from their eastern home. They were guests over the Fourth of July week-end of Mr. and Mrs. Shuman at the "Hart" near Country Club, near Corona, Ariz.

Home Again

Miss Bernice Cohn of 370 South Windsor Boulevard has just returned from a visit to her aunt, Mrs. E. W. King.

Of the interesting events of recent date was the beach luncheon given at Club Casa Del Mar, Santa Monica, by Miss Mary Quinn, Frances Lelertz and Catherine Mary Bellport, three of the most popular members of the younger set who have just been graduated from Immaculate Heart College in Hollywood.

The guests included were Miss Ruth Cole, Miss Joy Carhart, Miss Catherine Brooks, Miss Mary Bando, Miss Mary Fox, Miss Mary E. Stupper, Miss Virginia Hunter, Miss Helen Billings, Miss Frances Walsh, Miss Mabel Murphy, Miss Mary Walsh, Miss Maudie Farrell, Miss Margaret Clarken, Miss Lydia Berry, Miss Valerie Barbul, Miss Regina Murphy, Miss Virginia Dorr, Miss Lois Niece, Miss Zoe De Ford of San Francisco and the hostesses.

To Honolulu

Listed amongst the passengers aboard the City of Los Angeles sailing Saturday for Honolulu will be Miss Eleanor Bredren, of 809 South Catalina street. Miss Bredren will be the guest while in Honolulu of her sister and brother-in-law, Mr. and Mrs. John Stone Perry (Talm Bredren) whose wedding was one of the lovely events here last November. Miss Bredren will return home in September aboard the City of Los Angeles.

Afternoon Wedding

The home of Dr. and Mrs. P. V. Hogue, 329 North Jackson street, Glendale, was the scene of a prettily appointed wedding Saturday afternoon when at 4 o'clock their niece, Miss Ruth Linker, became the bride of Charles Clayton, son of Mr. and Mrs. George L. Clayton of Los Angeles.

The bride was charming in an orchid georgette gown over pink satin in period model, with pink hat to match and carried an armful of pink roses. Her sister, Miss Myrl Linker, in frock of peach tulle, with orchid hat, and carrying orchid sweet peas, was maid of honor, while Benji Hogue, cousin of the bride, served Mr. Clayton as best man. Her Clifford Cole of Glendale's Christian Church read the marriage service. Preceding the ceremony Mrs. Nan McCallister sang several songs, accompanied at the piano by Gordon Watkins, who also played the wedding march. A wedding dinner for fifty guests followed the ceremony.

The house was beautifully decorated with palms, ferns and a profusion of coral and pink.

Mr. and Mrs. Clayton are moving from the State on their honeymoon and after their return will make their home in Los Angeles.

Week-End

Mr. and Mrs. Arthur Rufus Peck of Irving Boulevard who are passing the season at Arrowhead Springs. They were joined over the Fourth of July holidays by their son, Aldrich Rufus Peck, and C. Ralph Senterby. The Pecks are building a mountain bungalow at Arrowhead.

Mr. and Mrs. J. Harvey McCarthy are also enjoying a delightful sojourn at Arrowhead Springs.

Motor Tour

Mr. and Mrs. Per Lee Snyder of Mission, O., with their two children, Mary Jane and Helen Snyder are enjoying a delightful motor trip having returned out from their eastern home. They were guests over the Fourth of July week-end of Mr. and Mrs. Shuman at the "Hart" near Country Club, near Corona, Ariz.

SENSATIONAL CASE ON TRIAL

Oil Lands Valued at Millions Basis of Suit

Plaintiffs Charge Buyer With Fraud

Well-Known Attorneys on Both Sides

VENTURA, July 6.—One of the most important law suits of the kind ever heard in America, a case involving oil lands and leases said to be conservatively estimated at \$3,000,000, began in the Superior Court here this morning before Judge Edward Henderson. Battling in the case for the plaintiffs, Ira Connel and Lewis Sawyer, guardians for their father, Truman B. Connel, and for the defendant, Ralph B. Lloyd, both plotters in the Rich-avenue oil field, are batteries of legal talent, an imposing array such as has never been seen in Ventura county in one case since the famous Muro murder trial many years ago.

The plaintiffs are seeking to recover oil lands and leases in the Rich-avenue field which were sold by the former owner, Truman B. Connel, to Ralph B. Lloyd on June 10, 1925, the contention of the plaintiffs being that at the time Connel signed the agreement to sell the land he was mentally incompetent. Connel since has been declared mentally incompetent in a Los Angeles court.

It is further contended by the plaintiffs that Lloyd fraudulently misrepresented the value of the field, it being charged that he claimed Connel's property was practically valueless for oil-producing because of alleged encroachment of water into the oil sands, and that he took advantage of Connel in the deal, buying the land and oil rights from him for approximately \$72,000.

All these allegations are denied by Lloyd. Former Judge Robert M. Clark of the Court of Appeals at Los Angeles, made the opening statements for the plaintiffs before Judge Henderson this morning. James E. Degan of the Los Angeles firm of Lawler & Degan delivered the opening statements for the defendant, telling the court that the defendant had been at the bank at the time the agreement was signed and that he found the agreement to be a fraud. He said there was nothing wrong with the agreement or sale, or that the property was worth more than the price paid for it.

The first witness was placed on the stand by the plaintiffs. He was Lloyd Burrell, petroleum engineer for the Shell company, who was in the arena field in 1917 at the time the first well was drilled on the Connel property. It is the plan of the case, as presented by the plaintiffs, that the agreement was signed on June 10, 1925, the time Connel signed the agreement by which he sold his property to Lloyd, the same property and oil rights which he is now seeking to recover. No less than fifteen wells were being drilled on Connel's property at that time, it is contended by the plaintiffs, seven of which were being drilled by the Shell company and two of which had been placed on production.

Testimony from the trial last afternoon by Burrell showed that from April 15, 1918, to March 21, 1925, a total of 8,721,620 barrels of oil was produced from the Connel lease exclusive of gas. Burrell said that at the time of the agreement to the Shell property seven wells were drilling on the lease. One well came in on May 9, 1924, at 800 barrels, and another came in on June 10, 1925, the date of the agreement of sale, at 560 barrels. F. E. Paba, assistant general superintendent of the Shell company, testified that the conditions on the Connel lease at two different periods, while A. S. Hayes, petroleum engineer for the General Petroleum Corporation, testified concerning the activities on the Rich-avenue field, which is surrounded on three sides by the Connel property.

Ask Council to Regulate Flying Boat

NEWPORT BEACH, July 6.—Whether a hydroplane is a boat and liable to the laws imposed by the city regulating speed of boats on the bay, was thrust upon by the trustees last night following the submission to the City Board of a petition signed by more than 100 names asking that H. H. Holloway, operator of a hydroplane, be refused permission to land and take off from Newport harbor waters.

The Board decided that the hydroplane, although not provided for in the ordinance regulating the speed of boats on the bay, should be regulated so as not to prove offensive to property owners and residents of the city. To that effect the board instructed Tom O. Jay, harbor master, to designate a landing and taking-off place in the upper bay for the machine.

That the hydroplane must fly at 1000 feet while over the lower bay or the city is insisted upon by R. N. Erick, Los Angeles broker, who has a summer home in this city, and who represents the property owners and residents of the city. In talking around the bay, Holloway will be forced to obey the law regulating the speed of boats and will be forced to use a muffler on his motor exhaust.

BOY FARMERS AT LUNCHEON

CORCORAN, July 6.—A unique and interesting program was presented by young farmers of Kings county at the luncheon session of the Corcoran Chamber of Commerce and the Corcoran Farm Center yesterday. The presidents of the two city clubs, Harry Maskand of Kings River, Leo Blowers of Armons and William Asano of Harwood, were introduced by H. L. Galt, chairman of the city club, who told of agricultural work and stated there were now ten clubs in Kings county, with a membership of 150 boys and girls.

TRANSFER IS ILLEGAL

Supervisors Prevented from Taking Money from Road Fund to Use on County Highways

City Auditor Resents Acts of Opposition

SAN DIEGO, July 6.—An audit of the last three years' records in the office of Harris Moody, City Auditor, to show taxpayers the conditions in that department, will be recommended by Moody, City Auditor, to the County Board of Supervisors, as announced today. This decision, he explained, was prompted by requests for an investigation from many citizens.

Moody said that if the City Auditor's opinion on the question of the majority group of Supervisors, stated that he had not given up his determination to make the position his own, he would not get out of the office until he had secured the majority of the board. He said that "some way would be found to restore the money wrongfully taken from the highway fund last year," though he has not yet hit upon a plan, he admitted.

Thus the auditor and the minority group of Supervisors who opposed the transfer of money from the road fund to the highway fund, which is for maintenance of the highway system, and placing it in the automobile license fund, for division between four districts, where the highway fund is the only source of funds as paved roads and where the first district, including the city of San Diego, would not get a share.

The sum in question was spent last year upon Santa Ana Canyon Road, in the Fourth District, under a policy adopted several years ago by the board, which contributed \$100,000 from the automobile license fund to the highway fund for expenditure upon the good-roads system.

The letter was a copy of one sent by the association to Atty.-Gen. Webb, County Auditor, an investigation of Moody's office.

Funds for the audit of the auditor's books by a local firm of accountants will be asked by the Council by Clark next Monday, he indicated. As far as I know, Clark declared, "there is nothing wrong in Moody's department."

Clark said that in the annual audit completed early this year by the L. S. Everitt Company, expert accountants, Moody's accounts balanced. The "No Higher Tax" Association, headed by James Harry Johnson, president of the San Diego real estate dealer, is leading the demand for a probe of Moody's office, Clark said.

Exploding Gas Tank Cause of Many Troubles

REDLANDS, July 6.—A backfire which exploded the gasoline tank of a truck owned by the Collette Trucking Company, Inc., of Los Angeles, caused the driver, L. Sinclair, a body that freemen worked over him an hour with the inhaler, burned the truck and caused a gas leak which threatened several buildings of the water plant at Roosevelt Canyon. Sinclair was driving the truck, loaded with old tires and cases of rubber cement, down the grade when the engine backfired and the gasoline tank exploded. Burning oil was thrown all over the truck and the cases of cement exploded and added to the fire.

Before Sinclair could jump he had inhaled the gases and was found unconscious. He was taken to the hospital and is now recovering. The cause of the explosion was a gas leak from the engine. The water plant is in great danger from the fire. The cause of the explosion was a gas leak from the engine.

SEES GAIN IN VALUES

VENTURA, July 6.—A gain of \$16,000,000 in Ventura county tax valuation, according to the figures of Jasper Barry, County Assessor, although the complete figures have not been completed, Barry believes that the city of Ventura will show a \$1,000,000 gain when the totals are ready.

Ventura county tax assessments last year totaled about \$60,000,000. The indications are that the amount will reach \$62,000,000 this year. "We are up," said Barry this morning, "will come in this city and the Ventura county, although there has been a slight decrease in the other cities in the county. I think probably Ventura will prove to have increased more in proportion to its size than any other city in the county."

The number of assessments last year will just double those used last year.

ARGUMENT ENDS IN CUTTING SCRAPE

TULARE, July 6.—O. D. Hoptner is being held in the Tulare City Jail on charges of assault with a deadly weapon, while his landlord, Thomas Arilla, is confined at home suffering from severe cuts on the left wrist and arm, declared to have been inflicted by Hoptner in an argument over Arilla's son.

Hoptner is alleged to have spoken of the fed in connection with the disappearance of a number of articles. The argument culminated in a fist fight, in which Hoptner was injured with a knife. Police declare Hoptner has admitted his part of the fight and that the injured man by a physician summoned to the scene.

MOUNTAIN BOY'S AIM WAS TRUE

Lions Killed on Kern County Homestead as They Prepare to Fight

Bakersfield, July 6.—A thin silver of new moon threw vague shadows over the Hooper homestead near Weldon. The Hoopers were preparing to travel to Bakersfield "for a little excitement over the Fourth."

Mrs. Hooper, buying herself in her preparations, was startled when she heard a clamor of snarling and fighting in her front yard. She ran to a window.

Two huge mountain lions were going through the preliminary to a fight. Tails snapped back and forth in electric ripple and the great cat bared long teeth in terrifying snarl. The eyes of the lions caught the faint glow of the moon and focused them into facets of fire as the eyes of the cats always give back the light.

A few minutes later Mrs. Hooper found Marion in an upper room. Marion picked up a rifle, took careful aim over a window sill and "then fired." The lion thrashed about in the yard. His mate shot off into the night, a streak of gray.

The young man, who had been examining the lion and then went about their business of preparing for a trip to Bakersfield.

The moon was dark. Burning in the dark were two points of light. Mrs. Hooper retreated and called to her son again. Marion grabbed his rifle and entered the black pit of the basement. The gun again—then quiet. The Hoopers, quietly about their packing. They were smiling. Bounties from the county and State for the killing of two big mountain lions will pay them \$180.

Pastor Safe in Battle Creek, Say Officers

PASADENA, July 6.—Years for the safety of Miss Lottie B. Skilton, 43 years of age, who has been arrested by the Pasadena police, a small church at Battle Creek, Michigan, was alleged to have been the scene of a battle. Friends here had heard no word from her since she left Pasadena, where she boarded a Union Pacific train. Mrs. Skilton, pastor of the church, had understood that she was going to Battle Creek, but when business associates at the Harrower Street Manufacturing Laboratory of Pasadena, where Miss Skilton was employed, stopped in Battle Creek to call on her, they found that she had not arrived. A mysterious telephone call informed the laboratories that she had arrived, but a check proved this untrue.

Deputy sheriffs traced Miss Skilton to Sacramento and later to Arroyo, and learned that she arrived in Battle Creek about the 1st inst. She was reported engaged to R. L. Johnson, a graduate of the University of Chicago, and that she was married or not, the deputies have not learned.

PLAYGROUNDS PAY

JUVENILE DELINQUENCY REDUCED AT FULLERTON

FULLERTON, July 6.—Juvenile delinquency has been reduced in Fullerton since the inception of the summer playgrounds. The city of Fullerton will show a \$1,000,000 gain when the totals are ready.

The organized playing which the playground officials have sponsored is keeping the boys and girls off the streets and away from the hazards of traffic and bad company, he said. "We have a corps of trained supervisors who are on duty from 9 a. m. to 5 p. m. and during that time run through a line-up of the best known games."

Joe Hardy, president, presided as chairman of the meeting. He read a communication from Charles C. Chapman thanking the clubmen for the book presented to him on his twenty-fourth birthday anniversary last week. Albert Sutton, chairman of the summer playground commission, was chairman of the program committee.

SOIL EXPERTS SPEND DAY IN PASADENA

PASADENA, July 6.—Some 300 delegates to the international convention of soil scientists held in Washington, D. C., stopped in Pasadena today long enough to attend a luncheon at the Hotel Maryland and to view some of Pasadena's famous gardens.

The soil experts, representing thirty nations, are on their way to San Francisco, by way of Fresno, to study California soils under the direction of Prof. Charles F. Shaw of the University of California.

NEW INSTRUCTOR FOR REDLANDS

Recall Talk at Monrovia

Bitter Battle of Words at Citizens' Meeting

Street Improvement Bone of Contention

Charge Council With Acting Arbitrary

MONROVIA, July 6.—Unless the City Council reconsiders its resolution to employ Edward M. Lynch, Los Angeles, as engineer for proposed improvements of Huntington Drive and White Oak avenue, and award the contract to Paul E. Kresley, Los Angeles, the action of the two associations, the only recourse will be a recall election against the board, was the decision of seventy-five property owners on Huntington Drive and White Oak avenue, who met at the Orange-avenue school last night to discuss the proposed improvements.

The development was the climax of a heated two-hour session in which bitter words were exchanged between members of the two organizations, some of whom favored action against the Council to block Lynch's appointment, but disliked the recall plan. A petition protesting the appointment of Lynch was circulated yesterday and was said to bear more than 400 signatures last night.

Following the meeting at Orange-avenue, the group adjourned to the Council chamber, where the petition was filed with the City Clerk and the plan was made for another meeting with the Council, to "iron out" the difficulties. The meeting was set for tomorrow morning at 9 o'clock in the Council chamber.

"After three long years of work we find ourselves backsliding and today we are facing a crisis not only in Huntington Drive and White Oak avenue, but in the entire city," declared Monteville Flower, president of the Huntington Drive Association and active leader for the appointment of Lynch. "What are we going to do?"

A recall election was suggested and met with approval among members in attendance. They were informed that a prepared recall petition was on the table, which stated that Lynch was a "bad influence" and that the city should recall him. A bitter word fight took place between property owners and others present, who pleaded, in the interest of peace and harmony, not to resort to recall. Before circulating the recall petition it was decided to give Lynch a "second chance" to resign. The recall election was postponed until the final resolution was reached.

Flowers briefly told the story of the "Lynch and Kresley fight" and presented statements and figures to show why the appointment of Kresley would be economical as well as legal.

By resolutions, members of the two organizations approved the action of the Council to employ Lynch and further action to which it might resort to recall. John B. McBratney, active civic worker in "interest of peace and harmony," declared that "there is some other way out." He urged the group to use of an improvement organization to lobby the city and to obtain favorable action from the trustees.

"A recall would put the city back five years," he declared.

"It can't be done," exclaimed Flower. "Our streets are now like a badger's back. We must have a recall and have them quickly."

Charles Anson, another White Oak booster, spoke briefly and approved the committee's action.

NEW THOROUGHFARE FOR BAKERSFIELD

BAKERSFIELD, July 6.—Bakersfield will have another direct traffic artery into the city from the east. Plans and specifications for paving twelve blocks of dirt street, which hook up with the Edison Highway at the intersection of the street, were ordered today by the City Council.

Action followed the presentation of a petition urging the improvement of the street. The petition was signed by twenty-four individuals who own property on the street. The petition was presented to the City Engineer, W. D. Clark, who will call for a full width of the street. The petition was presented to the City Engineer, W. D. Clark, who will call for a full width of the street.

OFFERS BUST TO CLAREMONT CHURCH

CLAREMONT, July 6.—A bronze bust of Dr. Henry Kingman, noted Southern California minister, which was made just before his death by the late Burt Johnson, may be placed in the new Claremont Church Educational Building, which is now being built at a cost of more than \$150,000. Mr. Burt Johnson has offered the bust to the church providing it will pay for the cost of casting.

RECALL TALK AT MONROVIA

Bitter Battle of Words at Citizens' Meeting

Street Improvement Bone of Contention

Charge Council With Acting Arbitrary

MONROVIA, July 6.—Unless the City Council reconsiders its resolution to employ Edward M. Lynch, Los Angeles, as engineer for proposed improvements of Huntington Drive and White Oak avenue, and award the contract to Paul E. Kresley, Los Angeles, the action of the two associations, the only recourse will be a recall election against the board, was the decision of seventy-five property owners on Huntington Drive and White Oak avenue, who met at the Orange-avenue school last night to discuss the proposed improvements.

OXNARD BUILDS CONCRETE ROAD TO THE BEACH

OXNARD, July 6.—With the opening of bids for construction of a road directly from Oxnard to the beach, the city of Oxnard, actual building of the road is expected to start within the next week or two, according to Supervisor L. F. Roussey, in charge of the improvement. Bids were opened by the Board of Supervisors yesterday and were as follows: Ed Johnson & Son, \$88,387; R. W. Olson, \$70,132; Fleming Construction Company, \$61,427; United Concrete Pipe and Construction Company, \$51,011; and C. E. Green, \$45,512. It was reported today that the contract was to be awarded to the low bidder.

The road will be a continuation of Fifth street, which runs through the center of town. The total distance to be covered is over three miles. Twenty-foot concrete pavements will be laid from the end of Fifth street to the McGrath Beach and a strip of the same width is to be constructed along the beach to connect with the Hollywood Beach pavement. With the construction of this road there will be a complete circuit between Oxnard and the beach through the harbor and Hueneme.

BRUSH FIRES LAY WASTE 30,000 ACRES

SAN DIEGO, July 6.—Brush fires laying waste more than 30,000 acres in the back country were reported by Luther Gordon, Chief County Fire Warden, last night. Low humidity and several hot days were responsible for seven fires, Gordon said. Forest rangers expected to have them all under control by noon today.

DEDICATE ENLARGED PARK AREA

Club Presents Government With Addition to Sequoia of 2400 Acres

GIANT FOREST, July 6.—Dedication ceremonies commemorating acquisition of the enlarged Sequoia National Park area to be held in Giant Forest the 9th to the 11th inst. at a meeting of the Sierra Club, and is expected to draw a large attendance from all sections of the State and attract national attention.

About 300 Sierra Club members are expected to be in the park to participate in the ceremonial, this number including many prominent persons. The Sierra Club is declared responsible to a great degree for addition of the new park area. Especially impressive is expected to be the dedication of a bronze tablet presented by the National Geographic Society for the Sequoia National Park on the 10th inst. in a ceremonial staged in Round Meadow near the Giant Forest lodge.

The exercises will be in recognition of the society's gift of 2400 acres containing some of the most magnificent sequoia groves in California. For eleven years the National Geographic Society has been working to preserve the area. A petition protesting the appointment of Lynch was circulated yesterday and was said to bear more than 400 signatures last night.

Following the meeting at Orange-avenue, the group adjourned to the Council chamber, where the petition was filed with the City Clerk and the plan was made for another meeting with the Council, to "iron out" the difficulties. The meeting was set for tomorrow morning at 9 o'clock in the Council chamber.

Charles Anson, another White Oak booster, spoke briefly and approved the committee's action.

ANNUAL FIESTA AT LAGUNA BEACH

LAGUNA BEACH, July 6.—Elaborate plans are being made here for the third annual Fiesta of the Laguna Beach Community Club to be held in the club's quarters August 10 to 13, inclusive. In connection with the fiesta, a queen contest is being held, with the following entrants: Julia Bingham, Charlotte Brown, Agnes Derrum, Doris Goff, Barbara Inch, Mary Jones, Doris Mendenhall, Betty Russell, Margaret Sanford, Virginia Thurston, Marjorie Watkins and Ruth Wilbur.

The attraction on the first night will be the vaudeville show under the direction of Mrs. Guy Bates Post. Mrs. Hal Forrest will be in charge of the fashion show on the second night. Sports will be on the program for the third night and the fiesta will conclude the evening of August 13 with a grand costume ball, with prizes offered for the best costumes. Mrs. J. Walter Rankin is in charge of the street musicians in costumes will lead color to the three-day festa.

EXPECT HIGH WATER IN IMPERIAL VALLEY

IMPERIAL, July 6.—The Colorado River discharge at this point will reach approximately 100,000 second feet, the highest crest of the season, within the next eight days, according to a forecast received at the office on the Imperial Irrigation District from the government gauging station at Grand Canyon.

The Cuban Revolt—1868.

by J. CARROLL MANSFIELD

DURING GARCIA'S SECOND TERM AS PRESIDENT (1873-1877), WE CAME VERY NEAR HAVING A WAR WITH SPAIN. THE TROUBLE AROSE OVER THE RICH ISLAND OF CUBA, WHICH WAS STILL HELD BY THE SPANIARDS.

THE CUBANS WANTED TO RUN THEIR COUNTRY THEMSELVES AND BE FREE FROM THEIR SPANISH OVERLORDS WHO USED TAXES COLLECTED IN CUBA CHIEFLY TO PAY SPAIN'S DEBTS AND OPPRESSED THE NATIVES. IN 1868, THE CUBANS REVOLTED AND, TAKING TO THE OPEN COUNTRY, BEGAN A FIERCE GUERRILLA WAR AGAINST THE SPANIARDS.

THE MOST ABLE CUBAN LEADER WAS A MAN NAMED GUESADA. MOST AMERICANS SYMPATHIZED WITH THE CUBAN CAUSE AND A NUMBER OF "SOLDIERS OF FORTUNE" WENT FROM THE UNITED STATES TO SERVE IN GUESADA'S ARMY.

SPAIN WAS DETERMINED TO KEEP HER GRASP AND USED EVERY MEANS TO CRUSH DOWN THE REVOLT. THE SPANISH ARMY, MANY OF THE "SOLDIERS OF FORTUNE" AND ANY AMERICAN FOUND IN THE RANKS WAS LIKELY TO MEET THE SAME FATE.

INS REFUELING TOKIO FLIGHT

for Grauman's Race
Are Announced

of New Design Needed
to Carry More Gas

Put \$30,000 Prize
Money in Trust

in the rules governing
the flight will force compet-
itors to have sufficient gasoline
to make the trip. It was revealed
that the regulations were
drawn up by H. H. Brasher, chair-
man of the Chamber of Commerce's
committee on aviation, whose au-
thority will be made.

the prize of \$30,000
will be awarded to the winner
during the preliminary
stage of the trans-Pacific flight
which would be permitted to
fly in the air over Hawaii, but
not be allowed to land. This
is withdrawn, according to
the statement yesterday.

FLIGHT RULES
for the flight are as
follows: The flight shall be made
either from Tokyo or from
Los Angeles.
It shall be made with a land airplane,
the capacity and point of ar-
rival shall be within the
radius of 500 miles of Los
Angeles, or on any
route within 500 miles of To-
kyo, or within 500 miles of Los
Angeles.

THE flight shall be a non-
stop flight between two points,
either Tokyo and Los Angeles,
or Los Angeles and Tokyo.
The flight shall be open to
any nation having affiliation with
the International Aeronautics
Federation.

Dry Worker in Hawaii Get Hearing

K. K. Wilson, former employe
of the California prohibi-
tion department, who
was arrested in Honolulu on
charges in connection with
the seizure of the post
office warehouse, will
appear in the Hawaiian city
court today.

THE NEXT WEEK

THE VAN NUYS ZONING
plan for the Van Nuys dis-
trict will be considered
by the city council today.
The plan is to be con-
sidered in the Van Nuys
city hall on April 20.

THE REPORTER FAILED TO GET AN INTERVIEW

COLORADO DAM EXPERT RESIGNS

La Rue Quits as Geological Survey Branch Head

Says Government "Muzzled" Him in River Disputes

He Called Boulder Canyon Project Extravagant

By a "Times" Staff Correspondent
PASADENA, July 6.—Because he was "muzzled" when he attempted to point out defects in the Boulder Canyon dam project, E. C. LaRue has resigned his position as head of the Pasadena branch of the United States Geological Survey after twenty-three years of government service, he announced today.

LaRue is recognized as an authority on the Colorado River and its water problems and was called to Washington before the Congressional committee investigating the Colorado River last summer following attacks on the Boulder Canyon project which he styled as extravagant and not as practical as others which he outlined.

SPONSORS OTHER PLANS
LaRue is author of a plan involving a dam at Glenn Canyon to bring water to Southern California by gravity flow and which he says would pay for itself in forty years. He also favored the Toiyah project for flood control which he estimated could be carried out at a cost of \$15,000,000, and the Hualapai project, fifty miles above Boulder Canyon, but he was ill, according to the Pasadena project, which would furnish 300,000 horsepower at low cost without the necessity of a storage reservoir.

The government silenced the engineer shortly after the Washington hearing, he said, and he felt that under these conditions his usefulness is near an end. His resignation will take effect the 15th inst., after which he will go into the Colorado River basin for a few months. The nature of this work cannot be divulged at present, he said today.

HAS EXPLORED RIVER
LaRue, who is a graduate of the University of California and a native of Riverside, has made many exploring and surveying expeditions into the Colorado and its tributaries for the government since he entered the engineering service in 1904. He established survey headquarters in Pasadena in 1917 after several years as district engineer in the Colorado River Geological Survey, with headquarters at Salt Lake City.

In 1925, after years of study and investigation, he submitted a complete report on the possibilities for the development of irrigation and power through the Colorado River.

Mr. LaRue expressed regret today over breaking off his association with the men in the geological survey whom he styled his best friends. He is leaving the service entirely of his own accord, he said.

SHE LAYS PERJURY TO "OTHER WOMAN"

Mrs. Alice Pedder

Because Frances Eleanor Brown, 31 years of age, denied on the witness stand in Superior Judge Brown's court that she had received money, jewelry and fancy clothes from Audrey Raymond, Pedder, wealthy building contractor, a complaint charging her with perjury was issued against her yesterday by Dep. Dist. Atty. Thomas.

The complaining witness was Mrs. Alice Ory Pedder, who more than a year ago obtained a divorce from Pedder, naming Miss Brown as co-defendant, according to Mr. Thomas. Deputy Sheriff King and Shaler were handed the warrant for the arrest of Miss Brown.

The complaint charges that on June 24, last, Miss Brown was called to the stand to testify on an order to show cause why she should not pay \$250 a month alimony, and that she testified she had not received money, jewelry and fancy clothes from Pedder, according to Mr. Thomas. Pedder testified that he had given all the articles to Miss Brown.

It is charged in the complaint that Pedder had given Miss Brown articles valued at more than \$4000 during a period he was supposed to be paying alimony to his wife, and that Miss Brown denied receiving any of the articles or money.

"She came into my house as a guest of Mr. Pedder and took away my husband's money," said Mrs. Pedder, as she signed the complaint.

Bail of \$5000 was recommended by Dep. Dist. Atty. Thomas.

ATHLETE HELD IN AUTO THEFT

Ex-Grid Star of Pennsylvania Seized in Chicago

Charged With Stealing Car from Dealer Here

Mother Living in Los Angeles Reputed to be Wealthy

Driving an expensive coupe asserted to be the property of William E. Bush, Inc., Los Angeles motor car dealer, Charles D. Austin, 27 years of age, former University of Pennsylvania football star and a grandson of a former Minnesota Governor, was arrested in Chicago last night upon the telegraphic orders of Sheriff William I. Traeger, according to dispatches.

Austin, a few months ago, was employed by the Bush corporation as a salesman, according to Capt. Harry Bingham, in charge of the Sheriff's auto theft detail which made the investigation.

REPORTS CAR STOLEN
Shortly before he left the firm to become associated with an oil company, Bingham said, Austin took a new coupe from the floor of the display room to show to a prospect. He parked the car on Spring street between Fifth and Sixth and returned to the office to find it stolen when he returned.

Austin then remained home from work for several days, informing his employer that he was ill, according to investigating officers. Subsequent investigation revealed that during this time Austin was reputedly a large coupe in his name, which the officers assert is the one belonging to the Bush corporation.

MOTHER REPUTED WEALTHY
According to information received by Capt. Bingham here from Chicago authorities, the engine number on the coupe which Austin was driving when he arrived at a Chicago hotel confirmed to the number on a new coupe of the same make, but of a different model now standing in the name of Mrs. Alice Ory Pedder. When arrested Austin told officers that he had purchased the car from a friend.

Chicago dispatches state that Austin was a star halfback on the University of Pennsylvania football team in 1914 and 1915. Austin's mother, who lives in Los Angeles with him, is said to be independently wealthy, while Austin himself is believed to have a large monthly income.

See All the Pacific Coast on Your Trip East

It costs a little more but the spring climate and scenic pictures of the Pacific Northwest warrant the expense.

Cruise up the Pacific Coast or take the Shasta Limited from Los Angeles or San Francisco—a trip through the Northwest that you will always remember with pleasure.

See Portland, Tacoma, Seattle and Spokane

Delightful cities with an ideal climate. The side trip from Seattle to Vancouver and Victoria on Puget Sound is most interesting and restful. You enjoy the auto trip to Mt. Rainier, where the flowers melt the snow.

The Northern route takes you through Northern California, along the rugged Oregon Coast, between the Coast Range and the Sierras, then the Siskiyou and the Cascades—mountains on both sides of your train to Portland, Tacoma and Seattle. Eastbound from Puget Sound, you climb the Idaho and Montana Rockies.

In Montana, if you have time, stop for the Yellowstone Park tour. (Season June 19 to Sept. 20.)

I am sure you will enjoy traveling on the "North Coast Limited"—it has the observation-parlor car Quoniam Limited on her American tour, a car with superior boudoir for ladies—boudoir bath—maid and valet service—card rooms—library—all without extra fare.

Northern Pacific Meals are "Famously Good." Big Baked Potatoes. Big Baked Apples.

Travel East from California the Northern Pacific way—in luxurious comfort—amid inspiring scenery.

Northern Pacific Ry.

PORT TO GET COTTON SHEDS

Harbor Department Steps Out of Compress Business With Permit for Exchange Agreed On

Los Angeles Harbor Department got out of the cotton compress business yesterday when Harbor Commissioners agreed to grant trustees of the Los Angeles Cotton Exchange a revocable permit on compress land sheds and use of Compress No. 2.

The permit is expected to be followed by a long-time lease as soon as the exchange resolves its incorporation. In the meantime the trustees acting for the exchange are A. H. Lamberth, Walter J. Simpson and M. S. Scott.

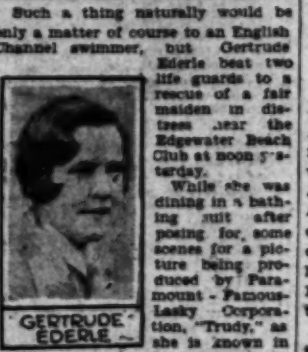

The permit specifies a rental of 1 cent a year per square foot on 400,000 square feet, also providing a storage of 5 cents per bale of cotton per month.

While the rental figure was not as high as commissioners liked, they lack the position that the action of the cotton industry to this port was the chief essential. San Diego and San Francisco were revealed as bidders also for the trade.

It is understood the exchange will spend \$100,000 at once on a new high density compress and later erect sheds over the entire area at a cost of more than \$400,000 more.

Bids will be called for July 11 by the Harbor Commission, and later removal of compress No. 1 and auxiliary machinery to make way for the new process.

Ederle Girl Takes Part in Real Rescue

GERTRUDE EDERLE

Such a thing naturally would be only a matter of course to an English Channel swimmer, but Gertrude Ederle, the world's champion swimmer, took part in a real rescue today.

While she was dining in a bathing suit at the Edgewater Beach Club at noon yesterday, she heard the cries of Mary B. Ascroft, 33 years of age, who lives in the Black Apartments, Hollywood. Mary had entered the water too soon after lunch, it seemed, and had been attacked with cramps when about 600 feet out. Nothing was the matter with her vocal cords, however, and she let the world know that she was in dire need of assistance.

Just as though it all had been rehearsed, Gertrude, in appropriate costume, dashed promptly into the surf, swam quickly to the girl and had her halfway to shore before the life guards reached her. Almost as much surprised by having been rescued by such a celebrity as anything else, Mary soon recovered and went home happy.

Craddick Will be Honored by Eagles' Lodge

Honoring Charles W. Craddick, Los Angeles attorney and aviator, who plans a United States Army airman, will initiate a class of candidates in Craddick's honor at a Hollywood motion picture studio on the 12th inst. James F. Bean, president of the order, announced yesterday.

The "Craddick class" will constitute more than 500 candidates. Documents to be submitted into the hands of officials in the island territory and the best wishes of the order will accompany Craddick on his journey.

Craddick, a well-known aviator, announced he was all set for the journey and would fly a tri-motor Ford plane, taking off from the aviation field at Ninety-ninth street and Western avenue.

Death Takes Stepmother of Janet Gaynor

Harry C. Jones, stepmother of Janet Gaynor, film actress, died Tuesday night after an illness of several weeks. Death resulted from heart disease.

Jones for many years was a prominent figure in the motion picture industry. At one time he was identified with the United States Department of Justice, with a law firm of \$20,000, and recently he had been engaged in literary work in connection with motion pictures.

He leaves a wife, Mrs. Laura Jones, and two stepdaughters, Janet and Helen Gaynor. Services will be held at the Westminster chapel, 717 West Washington street, at 1 p. m. today.

NEW FIELD FOR TRUCK DRIVERS

Traffic Officer in K.H.J. Talk Says Demand for Efficient Operators Large

In his daily talk over station K.H.J. (Went 8.1), Johnson of the police bureau of public safety yesterday referred to the early days of the automobile when many back and truck drivers went into the business of operating motor trucks and taxicabs. They did not know much about the rules of safety and they didn't care much, he said.

But conditions have changed greatly since then and today the demand for men who are skilled in operating cars and trucks is greater than the supply. That is, for men who are really in the safe operator class.

With more than 15,000,000 motor vehicles on our roads, 4,000,000 of these being trucks and taxicabs, the sergeant stated, a new occupation calling for more brain, skill and nerve than many of the so-called skilled trades has been developed.

Free-for-All Followed by Four Arrests

Two men and two women were arrested by Detective Lieutenant Howard, Leslie and Bond of the police vice squad after a free-for-all fight at 1419 Kearny street last night.

Mrs. Caroline Galleries, 31 years of age; Mrs. Martha Valenzuela, 22, and Pete Belthoff, 28, all living at the foregoing address, were charged with violating the Wright Act, December 26, 1913, attempted to stab Officer Leslie, police said, when the latter attempted to place him under arrest. He was booked on a charge of assault with a deadly weapon.

On searching the residence the police found about 150 gallons of liquor, the officers reported.

Fire Destroys Fruit Packing Plant and Cars

Fire which totally destroyed the packing-house of the Duquesne Orange Packing Company, near Charter Oak, with a loss upward of \$20,000, partially covered by insurance, broke out soon after the employees had left at 6 o'clock, last night. Two freight cars, side-tracked near the plant, were also destroyed.

J. F. Kendall, president of the company, stated that he could not ascertain what had caused the fire.

A LASTING IMPRESSION

The presence of girl students on an American steamer making an educational tour of the world was said to have distracted the men from their studies. If any of the men had got married as a result of that tour they would have taught them a lesson they would never forget.—London Opinion.

VISITORS LOATH TO LEAVE

International Soil Experts Hail Southland as Garden Spot of World on Departing

More than 300 newly made California boosters, representing thirty nations, were on board the special train of the International Congress of Soil Science when it pulled out of the Southern Pacific station last night on the first leg of the return trip to Washington. All were highly enthusiastic over what they characterized as the garden spot of the world and many expressed a wish that they might stay here for the rest of their lives.

Among the notables of the party were Sir John Russell, British agricultural expert, who was the principal speaker at a luncheon yesterday at the Alexandria. He was accompanied by King George for his horticultural accomplishments and he gave an interesting account of soil and farm conditions in England.

The convention proper was held in Washington, June 13 to 22, following a tour of the United States and Canada. Every man in the party was chosen because of his expert knowledge of soil.

UNITED STATES TODAY FOR PIONEER

Mrs. C. M. B. Rendall, Mother-in-Law of Senator Oddie, Prominent in City's Upbuilding

Mrs. Cecelia Murry Barnes Rendall, mother-in-law of United States Senator Oddie from Nevada, and pioneer resident of this city, will be laid to rest at the Hollywood Cemetery at 11 o'clock this morning following services by the chapel, with Dr. Irving Spencer, rector of St. Mathias Episcopal Church officiating.

Mrs. Rendall was a native of Salem, Ill., and 82 years of age. Coming to Los Angeles with her husband, the late Stephen A. Rendall, on her homestead in 1870, Mrs. Rendall has played an important role in the upbuilding of Los Angeles. She was a charter member of the Friday Morning Club and one of the organizers of the Echoes Chapter, D.A.R. She also was one of the organizers of the Southern California Academy of Science and the George Junior Republic Boys' Home at Chico.

Mrs. Rendall passed away Monday evening at 518 South Virgil street following a lingering illness. Her daughter, Mrs. Oddie, rushed here from Washington, D. C., to be at her

AUTOS STOLEN

Automobiles reported stolen in the past twenty-four hours from the streets of Los Angeles by their owners are as follows:

1921 Buick sedan, 1925-018; Oakland touring, 1921-476; Ford touring, 1140-618; Buick coupe, 1917-052; Buick sedan, 1921-044; Ford sedan, 1920-522; Ford delivery, 240-527; Ford touring, 1-169-707; Chevrolet roadster, 427-632; Ford touring, 1140-618; Chevrolet touring, 604-003; Buick roadster, 998-061.

Painless Parker and His Methods

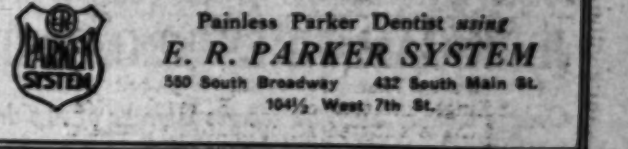

I USE every method I can find to improve everything I do. If there is a new way to make dentistry better, I adopt it. I employ every kind of advertising to make the E. R. Parker System in Dentistry known, and thus get more and more people to have their teeth cared for. I don't believe in hiding behind the door, but do believe in coming out and inviting people in.

It is a great privilege to be a dentist, for he can prevent and relieve more sickness than a physician. To remain silent when you are able to do good is almost wicked.

The public is entitled to know what its citizens can do, and I am glad to tell the masses that I can supply them with fine dentistry at prices they can afford to pay.

When you think of TEETH think of PARKER.

FOR Acid Stomach PHILLIPS' Milk of Magnesia

Instead of soda hereafter take a little "Phillips' Milk of Magnesia" in water any time for indigestion or sour acid, sour stomach, and relief will come instantly.

Phillips' Milk of Magnesia is water in the bottle and gently urges the moving waste from the system without purging. It is far more pleasant to take than soda.

Better Than Soda Try a 25c Bottle

For fifty years growing "Phillips' Milk of Magnesia" has been prescribed by physicians because it overcomes three things as much as in the stomach as a saturated solution of bicarbonate of soda, having the same effect and free from all gases. Be-
